Please Read This Page

You may learn something that will be of value to you, and it may save both of us from making unnecessary mistakes that might cause delay and misunderstanding on either side.

First.—We absolutely guarantee safe arrival and perfect satisfaction in every way, and if on receiving the goods, or if anything develops later by which you feel that we have not given you full value, let us know and we will either replace the goods, or make other restitution satisfactory to you. But remember, we are not perfect, we sometimes make mistakes, and in case of error if you do not let us know and give us a chance to make it right, you have no one to blame but yourself.

We handle seeds and plants because we enjoy it and also to make a living. We want your business not only for the small profit we get, but because it is a pleasure to have a part in producing good orchards and gardens, and beautiful lawns, and we want you to feel free at any time to call on us for any advice or suggestions we can offer to help you.

If for any reason we are unable to fill your order with exactly the variety ordered, we will, unless you request to the contrary, substitute with the nearest we have, in as good or better, but in no case will an inferior kind be sent.

If for any reason it becomes necessary, we reserve the right to change these prices, but if the price has advanced, we will notify you before shipping.

If you want anything in seeds, bulbs, plants or supplies not listed, write and ask us. We have many items in small quantity, which are not often called for, but which we have for our own use and can spare some.

All prices in this catalog are net as given, except on page 36 you will find what we call our "Bargain Counter," where you will find some combination offers and special bargains. Also on a few items the price is a little lower when sold at the store than when packed to ship.

Under certain conditions we will give a discount to granges or other organizations, or for "club orders," also to market gardeners or large buyers.

Terms.—Please send cash, check, money order or stamps (one- and two-cent only), or if you prefer, send one-fourth the amount and we will ship C.O.D. It is not a question of honesty, but at the prices we ask we cannot spend the time to keep books and send out the statements necessary with a credit business.

All of our seeds and plants are the best we can grow or buy, and we will stand back of everything we put out to the amount of the purchase price for your protection as well as ours.

We give no warranty, express or implied, as to description, quality or productiveness of any of our seeds, bulbs or plants, and we will not be in any way responsible for the crop. If you do not accept them on these terms return them at once and get your money back.

VEGETABLE SEEDS

In selecting our vegetable seed list we have taken great care to select those varieties which are the best in quality and the best producers, but what is more important, and which we find is appreciated most by our customers, we have taken special care to study those varieties which are best adapted to our soil and climate. No plant or variety grown is adapted to all soils and climates, and a catalog intended for nation-wide distribution must list everything adapted to the different localities, which makes it practically impossible for the average gardener to select those best suited to his own conditions. The greatest part of our business being in central New York, we have selected those varieties only which will do the best here, and anything that will grow here will grow anywhere.

All vegetable seeds in packets, ounces or quarter pounds delivered at the price quoted. At the pound prices be sure you send 6c. for the first pound and 1c. for each additional pound.

Remember, if you are a market gardener, or buy in quantity, you are expected to write in for special prices.

ASPARAGUS

If people knew how easy it is to grow asparagus from seed we would never sell any plants. Simply sow the seed in a drill, and the following spring set in its permanent bed. The seed is cheap; one ounce will give you about 250 good roots.

Palmetto. Large, early dark green, a fine flavor and a big producer. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 30c., lb. 90c.

For plants, see page 19.

BEANS

We have quoted bean prices up to 15 pounds. If you want more, write for bushel prices.

Webber Wax. Very early; a big producer of large yellow, meaty pods, and the quality is excellent. As free from rust as any kind we ever tried. We call this the best variety for shipping. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.75.

Davis White Wax. Very hardy, a big producer, having white seeds, can be used for dry beans. The quality not being quite so good, we do not recommend this for home use, but for a general purpose shipping bean it is used a great deal. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.75.

Pencil-pod Black Wax. An excellent-flavored, round, tender white pod. Good producer, but its great value is in the quality for home gardens. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.85.

Wonder Wax. We secured a few seeds of this bean a few years ago, but were unable to learn the name, so have called it the Wonder Wax. Long, flat, meaty pods, a wonderful producer of excellent quality and the latest we consider it safe to grow here. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.85.

Longfellow. A very long, round, tender green-pod snap bean. Excellent quality and a good producer. The best for home use and good for shipping. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.85.

Giant Stringless Green-Pod. A large, round, stringless pod of excellent quality and a wonder to produce. The leader in green-pod shipping beans and equally good for home use. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c., 15 lbs. \$2.75.

Refugee, or 1000 to 1. The most prolific of any snap bean and the most profitable to ship, but is a little late. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 30c., 15 lbs. \$2.60.

Dwarf Horticultural. A large, flat, speckled pod, containing a number of large, excellent, tender beans; used principally for "shelled green." Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 32c.

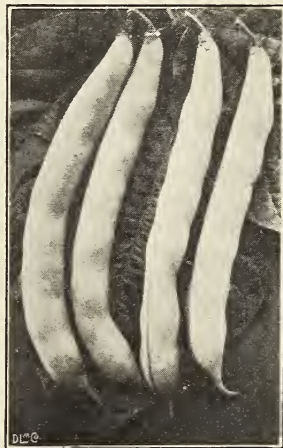

Dwarf French Horticultural. An improvement on the above. Larger pods, earlier, and said to be better quality. Pkt. 5c., $\frac{1}{4}$ lb. 15c., lb. 45c.

Red Kidney. A large red bean, very rich in flavor, and an excellent cropper. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c., 15 lbs. \$2.60.

White Kidney. Large, long white bean, excellent quality and a wonderful cropper. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 25c., 15 lbs. \$2.25.

Pea Bean. A small, round white baking bean which is more grown than any other variety. A big and a sure cropper. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 25c., 15 lbs. \$2.25.

Kentucky Wonder Pole Bean. Long, slender, round green pods of excellent quality and quite early. Fine either for snap or dry beans. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 35c.

Giant Stringless Green-Pod Beans

BEETS

Kelways Barrel-shape. This is a novelty we are importing from one of the largest seed growers in England, it being one of their own specialties. It is a long, red beet, being the same size its full length, somewhat like a blunt-tip mangel, but smaller, and of excellent quality. Pkt. 10c.

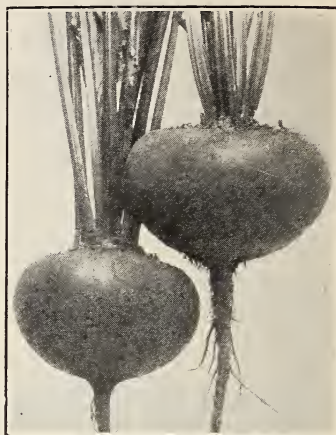

Early Egyptian. Very early, dark red, flat in shape. Excellent quality, and one of the best for early home use or the market garden. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 40c., lb. \$1.05.

Early Blood Turnip. Early, round, dark color and of fine quality; large tops, making it good for greens. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 38c., lb. \$1.00.

Eclipse. Medium early, of extra fine quality, tender and sweet; light color. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 40c., lb. \$1.05.

Detroit Dark Red. A large, late round beet. Fine quality and a big producer. Best for winter storage, as it keeps tender longer than most varieties. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 35c., lb. \$1.00.

Swiss Chard. This is the Lucullus or large curled-leaf and is becoming one of the most popular vegetables grown. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 40c., lb. \$1.15.

Early Egyptian Beets

CATTLE BEETS, or MANGELS

Giant Long Red. A very large producer of excellent quality, dark red; the best to grow if you have deep soil, but a little hard to gather.

Golden Tankard. Very large, oval shape, yellow and an immense cropper.

Lanes Imperial Sugar. This is not quite so big a yielder, but being a sugar beet is more valuable for feeding, and so is preferred by some.

Giant Rose Half Sugar. Very large, light color and contains nearly as much sugar as Lanes, and is a much better producer. The most grown of any variety.

Price of all mangels, oz. 10c., $\frac{1}{4}$ lb. 20c., lb. 60c.

BRUSSELS SPROUTS

If you like cabbage or cauliflower and have never grown Brussels sprouts you are missing something. Very easy to grow, and one of the most excellent vegetables we have. Grow them just as you would cabbage. Pkt. 5c.

CARROT

Coreless. An early carrot of extra fine quality and good size. Same thickness almost the entire length, with practically no hard core or center. We consider this the best of any. Pkt. 5c., oz. 16c., $\frac{1}{4}$ lb. 50c., lb. \$1.50.

Hutchinson. Large, stump-rooted, very productive and extra fine quality. Pkt. 5c., oz. 30c., $\frac{1}{4}$ lb. 90c.

Danvers Half-long. Good size, good quality and a big producer. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 32c., lb. \$1.10.

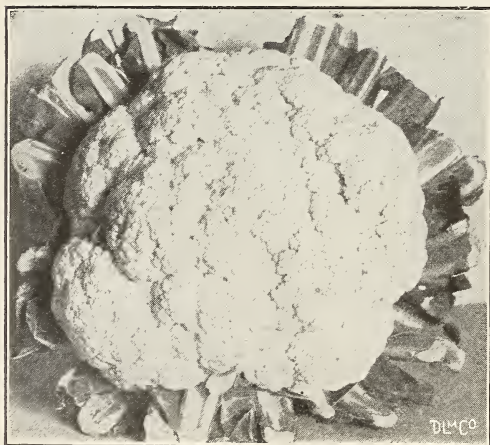

Chantenay. Very good for the table and also for stock feeding. Good yielder. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 32c., lb. \$1.05.

Oxheart. Very early, short, stump-rooted. Fair quality. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 30c., lb. 95c.

Long Orange. A big yielder of good quality, for the table, and fine to grow for stock, but requires a deep soil. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 35c., lb. \$1.10.

CAULIFLOWER

We are experimenting with other varieties, but at present the only variety we offer is the imported **Snowball**. It costs a little more for the seed, but is a sure cropper, of large white heads. Did you see those at the Madison County Farm Bureau at the State Fair? They were from our seed. Pkt. 15c., $\frac{1}{4}$ lb. 60c., oz. \$2.00, $\frac{1}{4}$ lb. \$7.00.

Cauliflower, Snowball

CABBAGE

We are in a cabbage country and make a specialty of this seed. We import a large quantity and of the early varieties which are grown in this country we take great care to have the best.

First Crop. This is a very early variety we had last year from Germany and it proved so very fine in every way that we are getting a much larger stock of seed this year. It is a good size, hard head, slightly pointed and excellent quality. For an extra early crop it proved fine. Pkt. 10c., oz. 60c.

Early Wakefield. One of the earliest; a good-sized, pointed head and fine quality. Pkt. 5c., oz. 20c., $\frac{1}{4}$ lb. 90c., lb. \$3.00.

Golden Acre. This variety has had a lot said about it and some claim it is wonderful. We will not give our opinion, but there being a demand for it we list it here. It is extremely early, a hard, round head. Pkt. 10c., oz. \$1.25, $\frac{1}{4}$ lb. \$3.75.

Early Round Head. We prefer this to the Golden Acre. With us it is fully as early, a larger head and fully as good in every other way, and we are able to offer the seed at a much lower price. Pkt. 5c., oz. 50c., $\frac{1}{4}$ lb. \$1.10, lb. \$3.50.

Copenhagen Market. The finest, both in quality and productiveness, of the second early varieties. Round head, and an excellent keeper, being almost as long a keeper as the winter varieties. Grown almost entirely in the kraut sections. Pkt. 5c., oz. 35c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.00.

Flat Dutch. Large, flat heads, immense in size and fair quality. Pkt. 5c., oz. 35c., $\frac{1}{4}$ lb. 90c., lb. \$2.75.

Red Dutch. Largest size head of the red varieties, and excellent quality, but as it is often streaked white, is not so good for shipping. Pkt. 5c., oz. 25c., $\frac{1}{4}$ lb. 80c., lb. \$2.50.

Red Rock. The best red cabbage for market. Heads round, hard and very dark color. Heads not so large, but being very solid, are good weight. We sell a great quantity of this seed every year, the crop going to the New York market. Pkt. 5c., oz. 25c., $\frac{1}{4}$ lb. 80c., lb. \$2.50.

Danish Ballhead. This is the special strain of the short stem we have been importing for the past ten years. The seed comes every year from the same grower in Denmark and is especially noted for the uniform size and shape and big yields. Pkt. 5c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50.

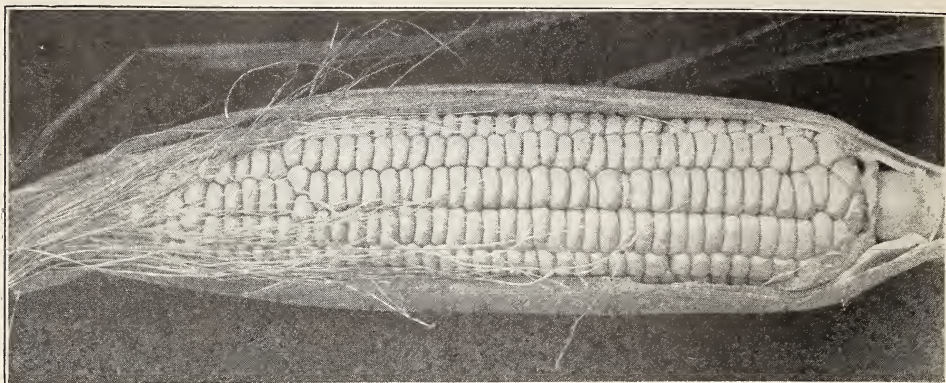

CELERY

Golden Self-blanching. This is early, very sweet and tender, and fine for the home garden, but rather small for market. Pkt. 10c., $\frac{1}{4}$ oz. 35c.

Easy-blanching. Medium early, fine quality and a good keeper. Pkt. 10c., $\frac{1}{4}$ oz. 25c.

White Plume. Easy to blanch, a fair keeper, good quality. Pkt. 5c., $\frac{1}{4}$ oz. 15c.

Giant Pascal. Large stalks, tender, good flavor and the best keeper. Pkt. 5c., $\frac{1}{4}$ oz. 15c.

Corn, Golden Bantam

CORN

Golden Bantam. We have an excellent strain of this most popular early kind. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c.

Golden Evergreen. A very large-eared yellow variety, a little later than the Bantam. Very sweet, and of fine flavor, and a great producer. An excellent variety. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c.

Early Evergreen. This is an early strain of the large-eared Evergreen corn. Very fine quality, giant ears and lots of them. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c.

Black Mexican. Medium-early; the black kernels are very sweet. A wonderfully-flavored corn. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 32c.

Country Gentleman. For real quality this has them all beat. Midseason, and a good producer, but the uneven rows of kernels makes it a poor kind to sell. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 35c.

Pop Corn, Japanese Baby, or Hulless. Very small ears of white corn, practically hulless, and pops very large and tender. For something fancy for the small home garden this is great. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 35c.

Pop Corn, White Rice. The most productive pop corn grown and of excellent quality. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 25c.

ENSILAGE and FIELD CORN

Pyramid Yellow Flint. A large-eared and very good producing Flint or state corn. Lb. 12c., peck (14 lbs.) \$1.00, bu. (56 lbs.) \$3.75.

Ensilage, Leaming. Bu. \$2.75.

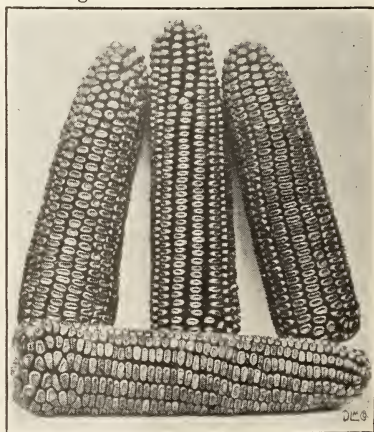

Pride of the North. Bu. \$2.75.

Early Wonder. Earlier than Sweepstakes, with large stalks and ears and abundant foliage, and is of much higher feeding value. Bus. \$3.75.

These are the prices at time of printing this catalog, but we do not guarantee them for any length of time. Write in and we will quote you if there is any change, and your order will be booked at prices on that date.

CRESS, or PEPPER GRASS

The fine leaves of cress make a very nice garnish; also excellent as a salad. Pkt. 5c.

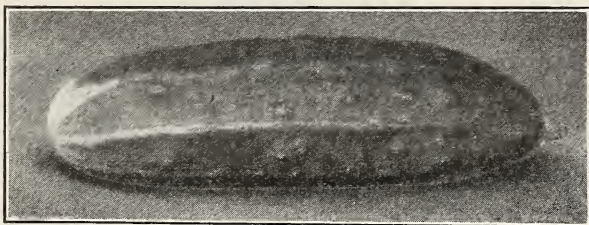

Field Corn

I am sending my thanks and everything was O. K.—
Mrs. L., New Hartford.

CUCUMBER

Prolific Early. This is extremely early, medium size, and an immense producer. Crisp and of fine flavor, and while a little small for shipping, for local sales and the home table, is the best we have yet found. We are growing our own seed and have a very limited quantity this year, but by another year hope to have plenty. Pkts. only 10c. each, and one to a customer.

Cucumber, Davis Perfect

Early Cluster. Medium size, early, a fair producer and of good quality. Grown a great deal for pickles. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 45c., lb. \$1.35.

Early Fortune. Quite early; White Spine type. A big producer; very fine quality and one of the best. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 50c., lb. \$1.50.

White Spine. Large, fine quality, fine looking cucumber. A big producer, but a little late. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 48c., lb. \$1.45.

Long Green. Very large, long dark green. Quality excellent. This is the standard shipping variety. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 45c., lb. \$1.45.

Davis Perfect. This is an improved strain of the long green, which we consider a better producer and a better looking variety to ship. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 48c., lb. \$1.50.

Long China, or Snake. A long, slim cuke, often growing 15 or even 18 inches in length. It grows rather slim and is often twisted. A curious type and of excellent flavor. Pkt. 5c., oz. 18c.

ENDIVE

Very easy to grow and one of the nicest salad vegetables.

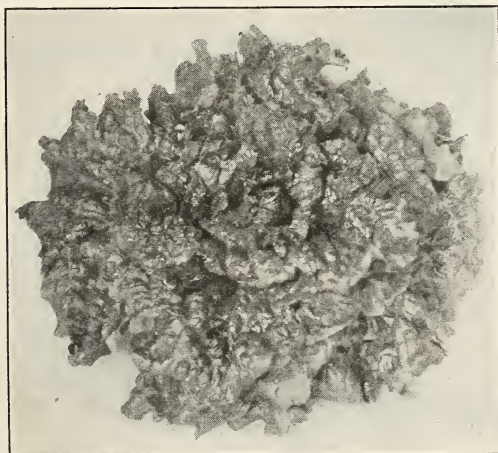

Moss Curled. Very fine curled leaves which, in the heart, blanch white and tender. Pkt. 5c., oz. 10c.

Broad-Leaf Batavian. Large, thick leaves, looking much like the cos lettuce but with a fine salad flavor. Blanch white in the center. Pkt. 5c., oz. 15c.

French Endive, or Witloof. The finest vegetable grown for those fond of salads. The roots are grown in the summer, like carrots, and gathered in the fall. They are then planted in a warm cellar, when they grow new tops which are blanched a pure white and are very tender and delicious. Pkt. 10c.

KOHLRABI

A large bulb or ball-shaped vegetable which grows on a short stem just above the ground. Has the flavor of a turnip but is much milder and very tender. Pkt. 5c.

Lettuce, Iceberg

LETTUCE

Grand Rapids. Very early, large light green leaves. Curled, tender and crisp. The best leaf lettuce. Pkt. 5c., oz. 20c.

Hansen. Large compact leaf variety. Light green, curly; grows very large but quality not quite equal to Grand Rapids. Pkt. 5c., oz. 20c.

Prizehead. This is the brown-edge leaf lettuce; very tender and fine flavor. Pkt. 5c., oz. 20c.

Iceberg. A large, loose head which blanches a white heart. Very tender and delicious. Pkt. 5c., oz. 30c.

May King. The earliest and we consider the best head variety. Pkt. 5c., oz. 20c.

Big Boston. The old standard head-lettuce for market. Pkt. 5c., oz. 20c.

Cos, or Romaine. Large, upright growing heads, blanching to a white center. Pkt. 5c., oz. 20c.

Onions,
Yellow
Danvers

MELON

Emerald Gem Muskmelon. This is the earliest and in fact the only muskmelon we can grow here successfully. Pkt. 5c., oz. 30c.

Coles Early Watermelon. Very early, medium size, good quality. Only in a very favorable season can these be grown here. Pkt. 5c.

ONION

The onion seed crop this past year was practically a failure and all onion seed is unusually high. We were fortunate enough to contract a small amount before it reached the top figures, but not soon enough to get a great amount or to get a very low price.

Yellow Danvers. Round, good producer, mild. Pkt. 10c., oz. 75c., $\frac{1}{4}$ lb. \$2.00.

Southport Yellow Globe. We consider this superior to the Danvers both in quality and as a producer. Pkt. 10c., oz. 75c., $\frac{1}{4}$ lb. \$2.00.

Southport Red Globe. Large, round, red variety; the best keeper and the best producer. Pkt. 10c., oz. 75c.

White Portugal. Mild flavor, early; the best white. Pkt. 10c., oz. 75c.

Onion Sets. Lb. 30c. Silverskin. Lb. 35c.

PARSNIP

We have the **Hollow Crown**, which is the best we have yet found. We are experimenting with another variety which looks promising but are not yet ready to recommend it. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 30c.

PARSELY

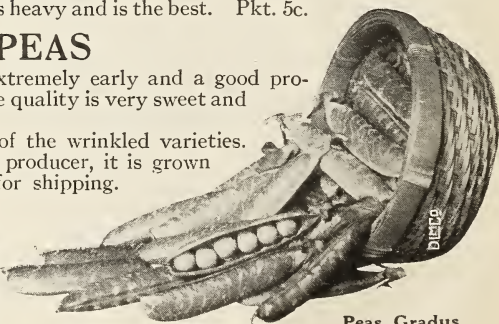

Ours is the **Double Moss Curled**. It grows heavy and is the best. Pkt. 5c.

PEAS

Early Market. This is a smooth seed, extremely early and a good producer. For a smooth-seeded variety the quality is very sweet and fine. Pkt. 5c., $\frac{1}{4}$ lb. 12c., lb. 33c.

Gradus. The earliest and one of the best of the wrinkled varieties. Sweet and of very fine flavor. A big producer, it is grown extensively both for home use and for shipping. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c.

Alderman. As this is simply a much improved strain of the Telephone and the price is the same, we do not list the old variety. For both home and market this pea is grown probably more than any other kind. Pkt. 5c., $\frac{1}{4}$ lb. 10c., lb. 30c.

Peas, Gradus

PEPPER

R. P. H. Sweet. This seed is our own growing. It is a very early pepper of fine quality, good and meaty and mild flavor and a big producer. You will have good success with this where no other variety will grow fruit. Pkt. 10c.

Large Hot. If you want a hot pepper, this has them all beat for size, quality and productiveness. Pkt. 10c.

PUMPKIN

Small Sugar. Small, flat, deep yellow, excellent quality, very early and a good producer. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 80c.

Kentucky Field. Sometimes called Large Cheese. A large ribbed, light yellow. Good quality but especially valuable for stock or canning. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c.

Mammoth Potiron. The largest pumpkin grown. Salmon-pink in color, rough skin, excellent quality. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 45c., lb. \$1.35.

R. P. H. Pepper

RADISH

Early Scarlet Globe. This is an extremely early small round red variety. Tender and crisp and not too strong. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 40c.

Crimson Giant. A large round, red kind, tender and crisp even when quite large. A fast grower and one of the best. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 38c.

French Breakfast. An oblong or olive-shape red with a white tip. Extra fine quality. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 45c.

Long Scarlet. A long, smooth radish, crisp and tender. The best long variety. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 40c.

White Icicle. This is a long white, very early and tender, and very mild flavor. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 38c.

Kelways Snowflake. This is a round white radish which we are importing from England. Rather large, mild and an excellent variety. Pkt. 10c.

Mixed Varieties. This is becoming very popular. We take some of every kind and make up the packets of this mixed seed, giving you a variety of early and late, red and white, round and long. Pkt. 5c., oz. 13c., $\frac{1}{4}$ lb. 40c.

Chinese Rose Winter. A long red winter radish tender and mild. Pkt. 5c., oz. 14c., $\frac{1}{4}$ lb. 40c.

SALSIFY, or VEGETABLE OYSTER

We have the **Mammoth Sandwich Island**, which is the best variety grown. Pkt. 10c., oz. 40c.

SQUASH

Improved Yellow Crookneck. A description of this is not necessary, except to say ours is a medium size, very fine flavor strain. Pkt. 5c., oz. 17c., $\frac{1}{4}$ lb. 50c.

White Bush Scallop. Excellent quality, fine flavor and good size. Pkt. 5c., oz. 17c., $\frac{1}{4}$ lb. 50c.

Cocozelle, or Summer Asparagus. This is the Italian Marrow. A long, green striped summer squash, which is said to have the flavor of asparagus. Is fast becoming a very popular vegetable. Pkt. 5c., oz. 17c., $\frac{1}{4}$ lb. 50c.

Delicious. Of the Hubbard type but smaller. The flesh is very dry and delicious and for home use is the best yet, but is not a profitable kind to ship on account of its size. For select home sales it is very profitable. Pkt. 5c., oz. 18c., $\frac{1}{4}$ lb. 55c., lb. \$1.50.

Blue Hubbard. A blue or gray skin variety of the old standard Hubbard. Very fine quality, a big producer and a profitable kind to grow. Pkt. 5c., oz. 25c., $\frac{1}{4}$ lb. 75c., lb. \$2.50.

Giant Warty Hubbard. Our seed of this variety comes from a grower making this a specialty, and is the best to be had. Very large size, fine in flavor and a big producer makes it an excellent crop either for home gardens or to ship. Pkt. 5c., oz. 17c., $\frac{1}{4}$ lb. 45c., lb. \$1.35.

English Marrow. We have had so many calls for the genuine English Marrow squash that this year we sent direct to England and have procured a small quantity of seed of the English Marrow, which we offer in packets only at 10c.

SPINACH

New Zealand. This is a "running" plant which is classed as a spinach, but, as a fact, is not, but makes excellent greens and can be cut all summer. Is a wonderful producer and fine quality. Pkt. 5c., oz. 15c., $\frac{1}{4}$ lb. 40c.

King of Denmark. Large, round, thick leaves which stand very long before seeding. Fine quality. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c.

Long Standing. This is an old standard variety with thick leaves. Pkt. 5., oz. 10c., $\frac{1}{4}$ lb. 25c.

TOMATOES

Burbank. There may be better tomatoes than the Burbank but we have never seen them. We first got this seed a number of years ago from the originator, Luther Burbank, and now we grow our own seed. A medium size, round red fruit and very meaty. Of excellent flavor, not too acid. Very early and a continuous bearer all summer. In every way as near perfect as it seems possible to be. Pkt. 10c., oz. 75c.

Earliana. Medium size, good quality, fair producer. Pkt. 5c., oz. 35c.

Chalks Jewel. Second early and a better quality and better producer than the last. Pkt. 5c., oz. 35c.

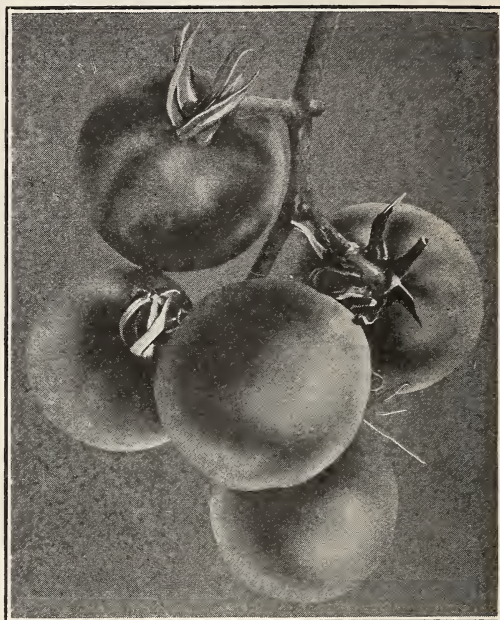

Favorite. Midseason, big producer of large smooth fine quality fruit. Pkt. 5c., oz. 35c.

Stone. Large, very solid, meaty fruit. Excellent quality but a little late. Pkt. 5c., oz. 35c.

Ponderosa. Extra large, late, fine quality and a wonderful producer. Pkt. 10c., oz. 50c.

Golden Queen. Large, meaty, fine flavored, yellow variety. Pkt. 10c., oz. 50c.

Yellow Plum. A yellow plum-shaped small fruit. Fine for preserves. Pkt. 10c.

Tomato, Burbank

TURNIP

Quicksilver. This is a very fast-growing round white turnip. Excellent for summer use, or when sown late is a good keeper for winter. We get this seed direct from the originator in England, who recommends it very highly. Pkt. 5c., oz. 15c.

Golden Ball. An early round smooth yellow turnip. An extra fine variety for summer or winter use. Pkt. 5c., oz. 12c.

Purple Top Strap-Leaf. Early, flat, good quality. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 75c.

Purple Top Milan. Another very early variety, purple top, flat, excellent quality. Pkt. 5c., oz. 12c., $\frac{1}{4}$ lb. 30c., lb. 85c.

Budlongs White Rock. The best large white turnip for winter use. This is the same as the Breadstone. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 80c.

White Rutabaga. Giant size, white, a wonderful producer either for stock feeding or for table use. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 25c., lb. 85c.

Improved American Purple Top. An excellent big producing, fine quality yellow turnip for winter use. Fine quality for the table and a profitable kind to grow for stock feeding. Pkt. 5c., oz. 11c., $\frac{1}{4}$ lb. 30c., lb. 90c.

TOBACCO

Connecticut Seed Leaf. Very hardy, rank grower and a fine variety. Best for the North. Pkt. 10c., oz. 50c.

LAWN GRASS

Chicago Park. Just the right proportions of each kind for the lawn. $\frac{1}{4}$ lb. 17c., lb. 50c.

Our Special Mixture. This is a special extra high-grade mixture of lawn grass and is extra fine. $\frac{1}{4}$ lb. 20c., lb. 60c.

Shady Nook. The right varieties properly blended to grow in shady places. $\frac{1}{4}$ lb. 18c., lb. 55c. Write for quantity prices on Lawn Grass seed.

FLOWER SEEDS

Our flower seed sales in 1925 more than doubled those of the previous year and we already have many inquiries for the coming season. Our customers have found that while the list is not large there are not a lot of questionable novelties, but every variety will do well in our severe climate here. We do not claim to grow our own, but we buy direct from some of the best growers in the world. We import from one of the largest growers in Germany, and our English grown seed we get direct from Kelway & Sons, who are considered the best there. Of course, the greater part comes from California, from men who are experts in their line.

All flower seeds at the prices quoted will be sent postpaid.

ASTERS

Our aster seed comes from California and for vigor of plants, size of flower and vivid coloring they cannot be beat.

Queen of the Market. These are very early, a medium size ball-shaped flower, and while not equal to the later varieties in size, are really an excellent variety to grow. The colors are well blended in all shades of pink, purple, blue and white. A good large packet for 10c.

Royal. This is a second early with large round flowers, broad incurved petals and good stiff stems. This is really a very fine variety. Colors mixed, 10c. for a large packet.

Crego. These are of the Ostrich Feather or Japanese type in a fine large assortment of colors. They are mid-season and borne on long, stiff stems. Pkt. 10c.

American Branching. A very large round incurved type on extra long stiff stems, embracing wonderful colors. They are medium late but come before the frost. Pkt. 10c.

Early Beauty. These are classed as an early variety, but actually are mid-season to late. They are earlier than

Aster, Queen of the Market

ASTERS—Continued

the variety generally sold as American Beauty, which in our climate are of little value, not coming into bloom before frost. They are extra large size, deep globe-shape and run to the dark colors. Pkt. 15c.

Fancy Yellow. It seems to be difficult to get a good yellow, but at last we seem to have found one that is just what is wanted. Fairly large, deep, double, and a good shade of yellow. Pkt. 15c.

Heart of France. This is that large, striking dark blood-red. The most showy variety grown. Pkt. 15c.

Everlasting Flesh. We have never grown this, but obtained the seed from the originator, who is one of the largest and most reliable growers in the world, and he claims it is just what he says: "A large flesh-colored bloom which when cut and dried retains its color and shape like the strawflower." Pkt. 15c.

Double Camellia-flowered Balsam

AGERATUM, or FLOSSFLOWER

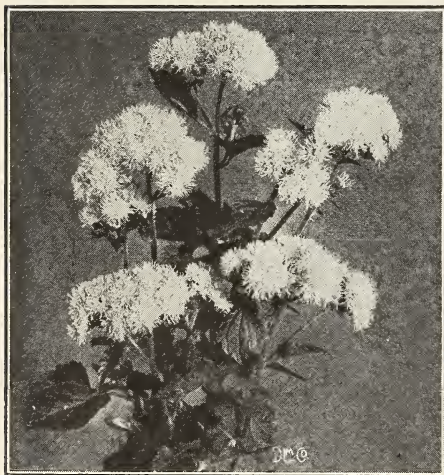

A very fine border plant about a foot high, very easy to grow and covered with floss-like blue flowers. Pkt. 10c.

ALYSSUM, LITTLE GEM

Another fine border plant, very quick growing, about six inches high and will spread for about a foot over the ground. It is a solid mass of delicate white bloom. Pkt. 5c.

DOUBLE CAMELLIA-FLOWERED BALSAM

An old favorite, about 18 inches tall, covered with pretty double flowers in white and all shades of blue, pink, red and yellow. Fine for bedding or to cut. Pkt. 5c.

Ageratum, Flossflower

AQUILEGIA, or COLUMBINE

This is a perennial, not blooming until the second year. Our seed is the giant long-spurred hybrids, in the brightest and most delicate colors. Pkt. 10c.

BELLIS, or ENGLISH DAISY

This is a perennial, and while it may bloom the first year, will last for many years. Does remarkably well in a shady place. Low growing and fine for a border. Ours are the true English type, in white and the various shades of pink and red. Pkt. 10c.

CANDYTUFT

Ours are the giant hyacinth-flowered and with their immense spikes of white bloom look like a white hyacinth. Excellent for mass bedding or to cut. They grow fast and seed should be sown in succession through the season. Pkt. 5c.

CALENDULA, or POT MARIGOLD

These are sometimes called marigolds, but for exhibition purposes they are not so classed, and if you are going to show at the fair do not enter them as marigolds. The strain we have is wonderful, the flowers are extra large, on long stems, and a very vivid lot of coloring. Pkt. 5c., oz. 20c.

CALLIOPSIS

A very pretty low growing plant with showy flowers in the yellow shades. Excellent for bouquet work.

Golden Wave. A very pretty yellow daisy-like flower with maroon center. Pkt. 5c.

Choice Mixed. Different shades of yellow with darker centers. Will grow anywhere and give an untold amount of bloom all summer. Pkt. 5c., oz. 20c.

CANARY BIRD-VINE

A very dainty vine with small flowers of a bright canary-yellow and fine cut beautiful foliage. Grows well in shady places. Pkt. 10c.

Centaurea cyanus (Bachelor Button)

CASTOR BEAN

A giant tropical-like plant with immense leaves, often two feet across. Plant grows from four to eight feet high. Seed can be started outside, but it is better to sow them in pots indoors and transplant outside when all danger of frost is past. Pkt. 10c.

CENTAUREA

Cyanus, or Bachelor Button. Sometimes called the Double Cornflower. A small graceful flower on long stems in all shades of blue and rose, also white. It blooms all summer and keeps fine when cut. Pkt. 5c.

Imperialis, or Sweet Sultan. These beautiful sweet-scented flowers on long stems are excellent for the garden or to cut. In all shades of lilac, pink, crimson and rose. Pkt. 10c.

CELOSIA

Cristata, or Crested Cockscomb. A stiff but very showy plant, with crests of bright scarlet. Pkt. 10c.

Plumosa, or Plumed Cockscomb. In this variety, instead of being flat, the flowers grow up in the form of a plume, in various shades of red and yellow. A very odd and pretty plant. Pkt. 10c.

Celosia plumosa, Plumed Cockscomb

CALIFORNIA POPPY

A low growing plant with finely cut foliage and showy saucer-shaped flowers in all shades of yellow and orange. Blooms all summer. We have an excellent strain of seed direct from the grower in California. Pkt. 5c.

COSMOS

When you get cosmos seed be sure and get the early variety, as the later ones are absolutely worthless here. The later seed is much cheaper, and for that reason much of that sold, especially in grocery stores, is the late. Ours is an excellent strain of the early giant-flowering. Pkt. 10c.

Calendula

We received the 100 Strawberry plants and they have fine roots; I am sure they will live. The privet hedge started fine and is doing great.—Mrs. A. Fabius.

Helichrysum (Strawflowers)

COREOPSIS

This is a very pretty and easily grown perennial with yellow flowers on long stems. Excellent to cut. Pkt. 10c.

DAHLIAS

Why not raise a few dahlias from seed? It is very easy and interesting. You will get all kinds, both single and double, in every color imaginable, with a good chance of getting something valuable, as that is the way the new varieties are obtained. Our seed comes from one of the leading California growers and is very choice. Seed should be started early indoors. Pkt. 20c.

DELPHINIUM, or HARDY LARKSPUR

These stately blue flowers, on their tall stalks, are very easy to grow from seed, and we have a very fine lot of good, fresh stock. This seed, to grow, must be fresh, that is the reason perhaps, you have not had better success with it. Pkt. 10c.

The plants from the Aster seed I got from you were fine.—*Mrs. W. Smyrna.*

DIANTHUS, or PINKS

Double Annual Mixed. Not a large flower, but has every brilliant color imaginable and is excellent for bouquet work or for bedding, as they will bloom all summer. Pkt. 10c.

Hardy Pinks. These are an old garden favorite, very easy to grow. For a border plant or to cut is one of the best. Pkt. 10c.

GYPSOPHILA, or BABYSBREATH

Not so much of a bedding plant, but nothing in the garden will add to a bouquet like a few sprays of the baby's breath. A few seeds sown at intervals through the season in some spare corner will give a succession of bloom all summer. Pkt. 5c.

HELICHRYSUM, or STRAWFLOWER

Everlasting flowers are fast becoming one of the garden favorites and our excellent strain of brilliant colors in a giant size is doing a lot to help this. They are very pretty as fresh flowers, but their great beauty and usefulness is in drying them for winter. To get the best results, sow the seed indoors as you would asters and transplant when the season is warm enough. Pkt. 10c.

HOLLYHOCKS

Ours are the best imported German seed of the giant double and are the finest to be had. They are in all colors, some of which it is impossible to get in the American-grown stock. Pkt. 10c.

FOXGLOVE, or DIGITALIS

Ours are the giant spotted variety, in all colors, and no garden is complete without a few of this most stately perennial plant. Pkt. 10c.

Kochia (See page 13)

JOBS TEARS

A peculiar grass-like plant grown principally for its seed pods which are used as beads. Pkt. 5c., oz. 15.

KOCHIA, SUMMER CYPRESS, or BURNINGBUSH

Call it what you like, for a border or hedge this is certainly one of the prettiest plants grown. With its round, feathery bushes, green all summer and turning scarlet in the fall, it is a sight to behold. Ours is the improved or childsi variety, which is much better than the old. Pkt. 5c.

LARKSPUR, or ANNUAL DELPHINIUM

One of the easiest to grow and one of the showiest of our garden flowers. They bloom nearly all summer, being excellent to cut or make a beautiful bed. They seem to have every color of the rainbow and then some. Pkt. 5c.

African Marigold

LUPINES

The pea-shaped blooms on their long spikes make a beautiful showing.

Annual. Very easy to grow and free blooming, running mostly to the red and blue shades. Pkt. 10c.

Perennial Variety. Our seed of this beautiful flower comes to us direct from the English growers, where they know how to produce it in its greatest perfection. Pkt. 15c.

MARIGOLD

These are the true marigold, a flower which should be in every garden. They are easy to grow and will give you flowers when nearly everything else is gone.

African, or Tall. These plants are about 30 inches tall and have large, round flowers of a soft yellow and orange shade. Beautiful in the garden and are grand for bouquets. Pkt. 5c.

French, or Dwarf. These have a smaller flower and run to darker shades, many of them having a variegated effect. Plants are about 12 to 15 inches tall and very free blooming. Pkt. 5c.

MARVEL OF PERU, or FOUR O'CLOCK

An old-fashioned flower of white, red, yellow and violet, shaped like the morning-glory and very pretty. Pkt. 5c.

MIGNONETTE

We get our seed for this old-fashioned fragrant flower from an English grower and know we have as fine a strain as can be grown. Pkt. 10c.

MORNING-GLORY

We carry only the improved Japanese morning-glory, which is far superior to the common variety, both in size and color of the blossoms. Pkt. 5c., oz. 25c.

BLUE IPOMOEAE

A very fast growing vine with large, handsome blue flowers of the morning-glory type. Can be started outside but does better started in the house and transplanted out later. Pkt. 10c.

Lupinus

Phlox drummondii, Annual Phlox

PYRETHRUM, or PAINTED DAISY

One of the showiest and most satisfactory perennials we ever grew. Blooms from the 1st of June until the middle of July, having a pink or red daisy-like flower which is beautiful in the bed or cut. Pkt. 10c.

PANSIES

Our pansies are the famous **Henri Mette King of the Giants**, which we get direct from the originator's garden in Germany. The size is great and the coloring is gorgeous. Pkt. 10c.

PETUNIAS

Giant California Double. These are extra choice colors in the very largest ruffled type. An extra large per cent will come double. Pkt. 50c.

Giant California Ruffled. These are the very largest type of the single ruffled and with an extra choice lot of colors. For pot plants or bedding are wonderful. Pkt. 25c.

Imperial Blue. A very dark blue or purple variety. One of the most striking and popular colors grown. Pkt. 25c.

PHLOX DRUMMONDI, or ANNUAL PHLOX

For a low growing mass of color nothing equals the annual phlox. White, with all shades of red and yellow, it is a sight, and as we have an especially good English strain with giant flowers, you will certainly be pleased. Pkt. 15c.

POPPY

For a big showing with practically no labor and very little cost, the poppy does the business. We have a good stock of California seed, and a few of them in some waste corner will certainly make a show.

Giant Double Mixed. Pkt. 5c.

Improved Shirley Mixed. Pkt. 5c.

True Flanders Poppy. Pkt. 5c.

MYOSOTIS, or FORGET-ME-NOT

This perennial is easily grown from seed, and for a low border is excellent. Covered with delicate blue flowers along the edge of a walk or outside of a flower bed it is very pretty. Pkt. 10c.

NASTURTIUM

This old favorite needs no description. No garden is complete without it. Furnishing a mass of bloom all summer, either to cut or for garden effect, it will always be a "best seller."

Climbing. Pkt. 5c., oz. 12c.

Dwarf. Pkt. 5c., oz. 12c.

NIGELLA, or LOVE-IN-A-MIST

A very pretty and dainty blue flower. Very free blooming and easy to grow. Makes a handsome garden plant or for bouquet work they are fine. Our seed is German grown, and as we have had it for three years from the same grower, we know what we are getting. Pkt. 5c.

Was very much pleased with the seed I purchased from you last year.—*Mrs. O. Leonardsville.*

Petunias, Giant California Ruffled

PORTULACA

These plants grow only a few inches high but are a mass of color, and as they run freely on the ground, are wonderful for bedding.

Single Mixed. Pkt. 5c.

Double Mixed. Pkt. 15c.

SALPIGLOSSIS

These brilliant velvety flowers, shaped like the petunia, on long graceful stems, are a sight to behold. Pkt. 10c.

SCABIOSA, or MOURNING BRIDE

Sometimes called the pincushion plant. Large flowers on long stems all through the season; it is beautiful. Pkt. 10c.

SNAPDRAGON

This is one of the most popular garden flowers as well as for growing under glass. Seed should be sown quite early indoors and plants pinched back to make them branch and throw stronger stems. Ours are the extra large flowers with beautiful colorings. Pkt. 10c.

Snapdragon

SCARLET RUNNER BEAN

A very pretty vine, making a quick growth to cover a trellis or wall. The pink and white blooms make it very showy, and the seed can be used as "lima beans." Pkt. 5c., $\frac{1}{4}$ lb. 20c.

SNOW-ON-THE-MOUNTAIN

A very pretty plant from 18 inches to 2 feet high, with heavy foliage, variegated green and white. Makes a fine border plant, or the foliage is excellent with cut flowers. Pkt. 10c., oz. 60c.

SWEET PEAS

In sweet peas we do not have a long list, but we try and furnish those only which are actually good and not simply a lot of novelties to sell.

In the **Spencer** or large-flowering varieties we have the following:

King White. A very large flower, pure white.

Countess Spencer. Rose-pink; one of the best.

Orchid. Lavender-pink; free bloomer and fine.

The President. A dazzling orange-scarlet.

Crimson King. A deep rich crimson.

Royal Purple. A very large deep rich purple.

Cherub. A deep cream, edged rose.

Valentine. A beautiful soft shell-pink.

Any of the above, 10c. per pkt., 35c. per oz.

Choice Mixed Spencers. A fine collection of the large-flowering type. Pkt. 5c., oz. 20c., $\frac{1}{4}$ lb. 65c.

The grandifloras, or early-flowering, are earlier than the Spencers, very free blooming, but not as large blossoms.

Dorothy Eckford. The best white.

Blanche Ferry. The old standard pink and white.

Lady Grisel Hamilton. Fine lavender.

King Edward VII. Bright red.

Any of these, pkt. 5c., oz. 12c., lb. 40.

Choice Mixed Grandifloras. Excellent for the price, but not equal to the grandifloras. Pkt. 5c., oz. 10c., $\frac{1}{4}$ lb. 35c.

Spencer Sweet Peas

Sweet William

SWAN RIVER DAISY

A very pretty dwarf plant about 12 inches high, covered all summer with small blue flowers. Pkt. 10c.

SWEET WILLIAM

We grow our own sweet william seed, and for size of bloom and choice colors, we will not take the back seat for anyone. Single and double mixed. Pkt. 10c.

VERBENAS

For a bedding plant the verbenas has been the favorite these many years. We have the giant size flowers in a wide range of colors. Pkt. 10c.

WILD CUCUMBER VINE

A pretty fast-growing vine with its pretty feathery white blooms and its prickly seed pods. Pkt. 10c., oz. 25c.

Verbena

SUNFLOWER

■ Tall growing and stately, we all make fun of the sunflower, but just the same, we want it.

Mammoth Russian. This is the giant single sunflower. Pkt. 5c., oz. 8c., $\frac{1}{4}$ lb. 17c., lb. 35c.

Giant Double. A plant six feet high covered with immense golden balls as big as your hat. Pkt. 10c., oz. 35c.

Dwarf Chrysanthemum. Double yellow balls on a plant four feet high. Pkt. 10c., oz. 50c.

STOCKS

We have had quite a call for seed of the stocks, showing that this old favorite is coming back to its own again. With the stiff, stately stems covered with double pink and white flowers, no wonder people want it, either for the garden or for cutting. We have secured from Germany, the home of the best strains, a quantity of the best seed to be had. Pkt. 15c.

Giant Dahlia-flowered Zinnias

ZINNIAS

We are especially proud of our zinnias, which we are enabled to get from a grower who is recognized as the greatest zinnia specialist in the world. We have three grades and each is the best to be had in its class.

Giant Dahlia-flowered. The plants are tall growing and the flowers are immense. The colors are everything from the most vivid to be found to the most delicate coloring we ever saw in a zinnia. And one great advantage, they have good long stems for cutting. Pkt. 20c.

Giant Double Mixed. This is an excellent strain and is much superior to any offered by most dealers. Fine colors, large bloom and good stems. Pkt. 10c.

Dwarf Bedding Mixed. These are a somewhat shorter growing variety with very full double flowers somewhat smaller than the others. Excellent for cutting. Pkt. 5c.

WILD FLOWER GARDEN

This is a mixture of all kinds of flower seeds we get from Germany. We did not have them last year, but two years ago those who had them were very enthusiastic about them and the demand is so great we are importing them again this year. You will find among these many kinds of flowers you never saw before. Pkt. 10c., oz. 35c.

Apple Tree in Bloom

NURSERY STOCK

Our nursery and hardy plant business has grown faster than we could take care of it; but why shouldn't it? We absolutely guarantee every plant we put out and, naturally, we would have every one as near perfect as it can be grown. We have made a study of those varieties best suited to the soil and climate of central New York and handle nothing that will not do well there. Most of the larger nurseries, catering to trade in all parts of the country, in printing their catalogue must give a general description and cannot take into consideration the differences in soil and climate. A great part of our business is within 100 miles of our own place and we sell nothing that we cannot fully recommend. As we send out no agents, you do not get a lot of false information nor do you have to pay exorbitant prices. Just look through the list we offer, compare it with others, then come and inspect the growing stock. All nursery stock sent by express, charges collect.

FRUIT APPLES

The following varieties we carry in stock, but we can furnish almost any variety grown, as we have an agreement with one of the best nurseries in New York state to furnish anything we need. All our trees are large, two and three year, 11-16 caliper, straight and with good root growth.

The varieties listed here are \$1.00 each; twelve trees, your selection, \$10.00.

Baldwin. A large red winter apple, crisp, fine flavor, a good keeper. One of the best.

Delicious. Bright red, of good size. Crisp and juicy. Another fine winter variety.

Duchess of Oldenburg. Very hardy, large size, red, tender and juicy. An excellent fall apple.

Early Harvest. Medium size yellow. Very mellow and juicy. Of delicious flavor and extra early.

Fall Pippin. Very large yellow, excellent flavor. One of the best late fall varieties.

McIntosh Red. Good size, bright red. Tender and juicy and of excellent flavor. Fast becoming the favorite early winter apple.

Northern Spy. A good size red fine flavor winter apple. One of the best keepers. Probably more grown than any other variety.

Pound Sweet. Extra large yellow fall apple. Sweet as honey. The best sweet apple grown.

Rhode Island Greening. Do not confuse this with the N. W. Greening, which is an inferior apple that is often substituted. The R. I. is a medium size green apple with a peculiar flavor and is a wonderful keeper.

Red Astrachan. A very early good-sized red apple. Very mellow and juicy. The best early apple grown.

Snow, or Fameuse. Medium to small, with mottled red skin and snow-white flesh. Very juicy and tender with a delicious flavor. Fall and early winter.

Tollman Sweet. Medium size, yellow, sweet winter apple. A good keeper.

Wealthy. Very large crisp and tender. Red fall variety. Very good kind.

Yellow Transparent. A very large early yellow apple. Mellow and of fine quality.

Transcendent Crab. Large red, juicy, very fine flavor. The best crab grown.

PEARS

We list those varieties which we consider the best for this section, but can furnish almost any kind you want. These, like the apples, are two and three year trees of the best grade.

Any varieties listed, \$1.35 each; six, your selection, \$7.00.

Anjou. Large, late and very fine flavor. A good producer and the best keeper.

Bartlett. This is the most grown of any variety. The fruit is juicy and melting. Large size; an excellent cropper. Early fall in season.

Clapp Favorite. This we consider the best of the earlies. Very large and a fine flavor.

Seckel. Fruit is small but a wonderful bearer. Early and sweet as sugar. A favorite variety.

Sheldon. A wonderful autumn variety, many preferring it to the Bartlett. Large and rich and a big producer.

PLUMS

Our plums you will find to be large, strong trees and sure to please you.

\$1.25 each, or six for \$6.65.

Bradshaw. Large reddish purple, early and a big producer. Fine quality.

Burbank. This is a great cropper and very hardy. Large reddish purple and fine quality. Bears when trees are quite young.

German Prune. Do not confuse this with the French Prune, which is smaller and of inferior quality, and is sometimes sold for less. This is a big producer of medium size purple fruit, good for eating and especially fine for canning.

Green Gage. A medium size sweet, fine flavored yellow variety.

CHERRIES

We do not list the large Sweet or Oxheart cherries as they postively will not do well here. We can furnish some excellent trees in the two varieties listed at **\$1.25 each, or six for \$6.55.**

Early Richmond. Very early and hardy and a big cropper. Fine quality.

Montmorency. A little later, with slightly larger fruit of excellent flavor.

SMALL FRUITS

Our berries are all strong healthy plants, free from disease. Anyone who has bought berry plants knows what a difference there is in stock from different places. You will find ours all to be strictly No. 1 grade.

Snyder Blackberry. A very large sweet juicy berry and a big producer. One of the best either for home use or for market.

Cuthbert Red Raspberry. Very large and of excellent flavor. Good bright red, firm and the best red we have found.

Columbian Raspberry. This is generally classed as a red but is nearer a purple. The quality is fine, it is firm and a good shipper and is a wonder to produce.

Plum Farmer Blackcap. A large, firm, juicy berry of excellent flavor. Bears an immense crop and is the best we can find either for home use or to sell.

All of the above bush berries, 10 of a variety for 75c., \$5.00 per 100. 50 of a kind at hundred rates; or, if you want a hundred, you may select different kinds, not less than 25 of any one.

Cuthbert Red Raspberries

GRAPES

People in this section have become discouraged trying to raise grapes because they tried to have varieties not suited to our conditions. We are sending out large two-year No. 1 plants of three varieties which we feel sure you can grow successfully.

Moore Early. An excellent flavored hardy early purple. A good producer, and being early, is the safest to try here. 45c. each, 6 for \$2.25.

Concord. The standard all-round purple grape. It has gotten so almost any purple grape is called Concord, but ours are the real thing. Medium early, fine quality and very productive. 35c. each, 6 for \$1.75.

Niagara. Medium early, fine quality. The best white variety. 45c. each, 6 for \$2.25.

CURRENTS

Why not have a few currant bushes in your garden? They are practically no care, cost very little in the first place and see what a lot you get from them. We have three excellent varieties.

Perfection. A very large red sweet currant and a big producer. 35c. each, 6 for \$1.75.

Red Cherry. An immense producer of excellent flavor but not quite so large as the Perfection. 30c. each, 6 for \$1.50.

White Grape. A very large fruit. Sweet and wonderful flavor. White. 30c. each, 6 for \$1.50.

STRAWBERRIES

We have contracted with an expert strawberry grower for his entire output of plants and they are certainly great. The finest plants we ever saw. His soil is ideal for the growing of plants and he thoroughly knows how to do it. The root system on them is wonderful. Every variety listed is a perfect pollinating blossom.

All varieties, 10 for 40c., 100 for \$2.00, \$12.00 per 1000. You can buy cheap Michigan-grown plants for half this price *if you want them*. In 100 lots you may select different varieties but not less than 25 of one kind. In 1000 lots not less than 250 of one variety. 50 plants at 100 rates and 500 at 1000 rates.

Premier. A large, long pointed light color berry. Very early and a big producer. Excellent flavor and the best early for home or market use.

Senator Dunlap. For second early this has them all stopped. Medium to large, deep red, the finest flavor, and for a big crop, Oh Boy!

Marshall. Fruit very large, dark color and excellent flavor. Midseason and one of the best.

Gibson. Midseason, medium size berry. A fine red color, fine flavor and a success for home or market use.

Aroma. Medium size, extra fine quality, a fine looking berry. One you should try.

Wm. Belt. This is one of the best late varieties; it is extra large and a wonderful producer. The quality is of the best, and for late market or for home use it is the one you want.

Strawberries, Senator Dunlap

VEGETABLE ROOTS

Rhubarb. Strong healthy roots, large size and sure to grow and do fine. 35c. each, 5 for \$1.50.

Asparagus. Large two-year plants with good strong roots, **Palmetto** variety, which is one of the best. 25 for 75c., \$2.00 per 100.

Having used your Imported Short Stem Danish Ballhead Cabbage seed for several years, would say I consider them true to name, good yielders and stand up well under blight. Will plant them again this year.

—C. D. Thayer, Hamilton.

[This man, who is one of the most painstaking and progressive farmers in Madison county, has used this seed *every year* for the past 12 years, and has placed his order for 1926.]

ORNAMENTAL TREES

You will notice in our list of trees we do not offer the extremely large sizes. We believe, except in very special cases, where it is important to get immediate effect and the cost is not considered, that it is much better to use the medium size stock. You get a much better root system on them, they are easier to handle, and for large trees you pay much more in proportion to what you get. We positively guarantee every plant we sell, and as our replacements are less than 2 per cent, you can very readily see what the quality must be.

ASH

American White. A quick growing, broad spreading form. One of the best shade trees. Grows about 50 ft. high and is an ornament anywhere. An 8 ft. tree for \$2.00.

BIRCH

Cutleaf Weeping. With its white bark and fine cut leaves on drooping branches, this is one of the most striking lawn trees we have. A rather fast grower, becoming about 35 ft. high. A good 4 ft. tree for \$3.50.

European White. Another white bark tree, upright in growth, with fine cut foliage. A fairly fast grower and a beautiful lawn tree. A 6 ft. specimen for \$2.50.

CATALPA

Speciosa. A very quick grower. A large spreading tree with immense heart-shaped leaves and white flowers in large clusters. A 6 ft. tree for \$1.50.

Bungei. This is a dwarf tree with a round head, and is used principally for formal effects. Ours are two-year heads and stand about 5 ft. \$2.50.

CRAB

Betchel Double Pink. A small ornamental tree which, in June, is a mass of double pink blooms. These are hardy and easy to grow and are a beautiful sight. \$1.75 for a good tree.

Floribunda. Grows about 12 ft. high, rather shrubby and very free flowering, with deep rose-colored flowers in June, followed by small bright red fruit. A very ornamental small tree. A 4 ft. specimen for \$3.50.

AMERICAN LINDEN, or BASSWOOD

A fast growing tree, reaching 60 ft. in height. Rather spreading in growth, good for street or lawn. Large leaves and fragrant white flowers. An 8 ft. tree for \$2.50.

FRINGE TREE

This is a low growing, spreading tree or shrub, with large glossy leaves and sprays of fringe-like white flowers. Very fine in the center of the lawn or with other shrubs. \$1.75 each.

Flowering Crab, *Malus floribunda*

MAPLES

Ash-leaf Maple, or Box Elder. Will grow anywhere and very rapidly. Of a spreading growth and reaches a height of 50 ft. Grown very extensively where a quick shade is wanted. An 8 ft. tree for \$1.50.

Silver. Deep cut, light green foliage, branches somewhat drooping, a very rapid grower, spreading in habit and will become nearly 40 ft. high. A very satisfactory quick growing tree for lawn or street. A 6 ft. tree for \$1.25, an 8 ft. tree for \$1.50.

Norway. One of the best street trees we have and also good for lawn planting. A very shapely fine looking tree, but not an extremely fast grower. A good 8 ft. specimen for \$3.50.

Silver Maple (See page 20)

PURPLE-LEAF PLUM

This tree grows about 10 ft. high, rather upright, with just enough spread to make a nice shape. It has purple foliage and handsome pink flowers. Especially good with other shrubs. A 4 ft. plant for \$1.50.

WEeping WILLOW

This is an old favorite that is becoming very popular again. Makes a pretty lawn specimen, with its drooping branches of fine, small leaves and graceful form. A very fine 8 ft. specimen for \$2.25.

ORNAMENTAL SHRUBS

We have not included in our list any shrubs that will not do well and give good results in our soil and climate. The agents who come to your door and many of the mail order catalogues will recommend many plants that might be perfectly satisfactory under some conditions and yet be practically worthless under other conditions.

FLOWERING ALMOND

Double Red. A 5 ft. bush covered *very* early in the spring with small rose-like red blossoms. The bush is a solid mass of bloom and coming before anything else, are as welcome as the first robin. A good sized plant for \$1.20.

BUDDLEIA, or BUTTERFLYBUSH

A very fast growing bushy plant with long spikes of lilac-colored flowers. Gets its name from the idea that it attracts butterflies. Is apt to winterkill back some with us, but grows so fast it becomes a bush 3 to 4 ft. high in a season by the time it blooms. We have some fine large plants for 75c. each and some smaller ones for 45c. Either size is excellent value and will bloom the first year.

Japanese Barberry

JAPANESE BARBERRY

This is the hardiest and one of the finest of our hedge plants. It can be trimmed to a square or round top, or it left to grow becomes a very gracefully shaped plant, with its slightly drooping branches. The leaves turn a handsome crimson in the fall and the plant is covered all winter with red berries. This plant can also be used as a single lawn specimen, or is very effective as a background against a house or wall. We grow a great quantity and can furnish any size and any number at very reasonable prices.

12 inch plants.....	30c. each, 10 for \$2.50, \$18.00 per 100
18 inch plants.....	35c. each, 10 for 3.00, 25.00 per 100
24 inch plants.....	45c. each, 10 for 4.00, 35.00 per 100
30 inch plants.....	60c. each, 10 for 5.00, 42.50 per 100
36 inch plants.....	75c. each, 10 for 6.00, 50.00 per 100
Larger specimen plants from \$1.00 to \$2.50 each.	

Regarding the seed we bought of you last year, our Sweet Peas were beautiful; we never had finer ones, nor so many flowers, and the rest of the seed all came fine.

—Mrs. C. W., Solsville, N. Y.

Hydrangea paniculata

any group of shrubs. It grows about 6 ft. high and is hardy. A good sized plant for 90c.

BUSH HONEYSUCKLE

Pink Tartarian. Grows about 8 ft. high and is very ornamental, with its glossy green foliage alone, but in addition, with the beautiful pink blossoms in June followed with the ornamental red berries, it is one of the most desirable shrubs grown. We can furnish fine stock of these in good, large plants with excellent roots for 85c. each.

White Tartarian. These are the same as the pink, except that the blossoms are white. We also have an excellent lot of these at 85c. each.

HYDRANGEA

This is another of our "leaders." We can furnish some extra fine stock of this most popular shrub in various sizes.

Arborescens, or Hills of Snow. These are the so-called spring-blooming hydrangea. They have immense clusters of white flowers in June and July which stay in fine condition for a long time. They grow 4 to 5 ft. high and are very hardy. They can be used as a hedge, as a specimen plant on the lawn or as a foundation planting against a wall.

18 inch plants.....	70c. each, 10 for \$6.00
24 inch plants.....	85c. each, 10 for 7.50
30 inch plants.....	\$1.00 each, 10 for 8.50
36 inch plants.....	1.35 each, 10 for 11.75

Five at ten prices. Specimen plants \$1.50 up.

Paniculata. These are the later-blooming variety, with large, cone-shaped clusters, opening white and turning pink, and lasting until winter. These plants come in two forms, the bush and the tree. The bush makes a beautiful plant for a hedge or foundation planting or is fine on the lawn, while the tree form is used as a specimen plant on the lawn and thousands are used for cemetery planting. In the bush form we have them.

18 inch plants.....	75c. each, 10 for \$6.25
24 inch plants.....	90c. each, 10 for 8.00
30 inch plants.....	\$1.25 each, 10 for 10.50
36 inch plants.....	1.50 each, 10 for 12.50

Five at ten rates. Large specimen plants for \$2.00 and up.

Tree Form. These grow from the ground on a single stem, branching out at some distance from the ground, and make a beautiful plant. 3 ft. size, \$1.50; 4 ft. size, \$2.25; specimen plants, \$3.00 up.

FLOWERING CURRANT

A very pretty, low-growing shrub, with small, pretty yellow blossoms. \$1.25 each.

DOGWOOD

Siberian. Grows about 8 ft. high, with red branches and white flowers. Later it is covered with bluish berries, making it an ornament at all times. 85c. each.

DEUTZIA

Pride of Rochester. A very pretty low growing bush with large double white flowers. Fine grown with other shrubs or alone. 75c. each.

GOLDEN ELDER

With its white flowers and deep cut golden-yellow foliage, this plant is a great addition to

HONEY LOCUST

This makes a rank, thorny hedge and for street or lawn planting is not the best, but if there is any place where you wish to keep out the small boy or animals this will do it, and it is not a bad looking hedge. Can be left to grow rank or can be kept sheared and makes a very shapely appearance. 10 for \$1.25, 50 or more, 10c. each. In large quantities, ask for prices.

LILACS

These are always an old favorite and nothing else just seems to take their place. With the fragrant clusters of bloom early in the spring, and bush that is an ornament all through the summer, we could not get along without them.

Common Purple. Very hardy and makes a good bush to hide an ugly corner, or a row of them makes a fine high hedge. 75c. each, 10 for \$6.00.

Persian Purple. Small, shining leaves and immense, loose clusters of light lilac bloom. A very ornamental bush and very hardy. \$1.25 each.

Pekinensis. A slender growing bush with spreading branches and large panicles of yellowish-white flowers. \$1.35 each.

PRIVET

Whatever you do, do not let anyone sell you the California Privet unless you live where you know it will grow, and that is not here. It is very low in price and where it will stand the winters is an excellent hedge, but it positively will winterkill here every time. We have the Amur Privet, which is about as good and much hardier. We also have the Lodense, which is perfectly hardy with us.

Amur. Of upright growth, and as I write this, the leaves are still on the plants outside my window, Dec. 28th. They are fast growers and make an excellent hedge.

12 inch plants sold in lots of not less than 50 and in bundles of 25 each for 10c. per plant.

If you want to start at very little cost, this is a bargain.

18 inch plants.....10 for \$2.00, \$16.00 per 100

24 inch plants.....10 for 2.50, 20.00 per 100

50 plants at hundred rates.

Lodense. This is a new variety which has been sold only for a few years. We got a few plants when it first came out direct from the originator, and put them on our own place for trial. It has gone far ahead of what we expected, and it is surely going to be one of the most popular shrubs sold. It is, as its name indicates, low growing and dense; it is strictly hardy, and for a low hedge is the best thing we ever saw.

12 inch bushy plants, 10 for \$3.00;
\$25.00 per 100; 50 at hundred rates.

SYRINGA

Philadelphus. This bush grows about 8 ft. high, is excellent for a high hedge or low windbreak, or makes a very fine single shrub for lawn planting. In June it is covered with waxy white very fragrant flowers. We can supply extra nice stock of these at 75c. each.

Golden Syringa. A compact-growing shrub, about 5 ft. high, having white flowers in June, but is especially valuable for its bright yellow foliage. \$1.25 each.

Syringa Philadelphus)

SYMPHORICARPOS

Snowberry. A very pretty bush, about 5 ft. high which we used to see in grandmother's garden. It has small pink flowers which are followed by waxy, large white berries, which last nearly all winter. A nice plant for 85c.

Coralberry. A very pretty bush, similar to the last in habit of growth, but having compact clusters of scarlet berries. 85c. each.

SPIRAEAS

There is a great variety of the spiraea, all of which are hardy and easy to grow. They can be used in almost any kind of a place and under all conditions, and are really the leaders among our ornamental shrubs.

Spiraea vanhouttei

Anthony Waterer. A dwarf spreading bush, growing about 3 ft. high and about the same distance across. It is covered with a mass of small, crimson flowers in flat clusters. Fine with other shrubs or planted alone. 75c. each.

Billardi. An upright-growing plant, about 6 ft. high, with spikes of rose-pink flowers in July and August. Especially good for dry places or sloping ground. 75c. each.

Aurea. This is the golden-leaf spiraea, and mixed with other shrubs is very effective. Rather low growing, and when placed with other plants the contrast of the green and yellow is fine. 85c. each.

Callosa alba. A low-growing bush similar in habit to Anthony Waterer; in fact, the two planted together, are especially fine. It has flat clusters of pure white flowers, when in bloom being a solid mass of white. 85c. each.

Opulifolia, or Ninebark. A strong, quick grower, about 8 ft. high, with clusters of white flowers in June. 85c. each.

Prunifolia. Sometimes called the Plum-leaf Spiraea. An upright-growing bush with shiny leaves and in June a mass of small, double, rose-like flowers, like an immense snowbank. Some claim they are not hardy, but we have had them for years and they are as hardy as anything on the place. \$1.00 each.

Vanhouttei. This is what we know as the Bridal Wreath, and is one of the hardiest, easiest to grow, and prettiest shrubs there is, and can be used in any place for any purpose. We make a specialty of these, and have them in all sizes and excellent stock at very reasonable prices. 15 inch plants for hedge work equal to what you would buy of an agent for twice what we ask, 10 for \$2.00, \$15.00 per 100. 50 at hundred rates.

18 inch bushy plants..... 35c. each, 10 for \$3.00, \$25.00 per 100

24 inch bushy plants..... 45c. each, 10 for 4.00, 35.00 per 100

30 inch bushy plants..... 60c. each, 10 for 5.00, 42.50 per 100

36 inch bushy plants..... 75c. each, 10 for 6.50, 50.00 per 100

50 at hundred rates. Large specimen plants, from \$1.00 up.

Thunbergi. About 6 ft. high, with graceful, drooping branches, and very small, shiny leaves. Very early in the spring they are covered with a mass of fine feathery-white blossoms. 85c. each.

VIBURNUM

Single Japanese Snowball. An upright growing bush, about 8 ft. high, with large, deep green leaves and flowers in June in the form of white, round heads, about 4 in. across. \$1.25 each.

Double Japanese Snowball. A strong-growing shrub, about 8 ft. high, with dark green, rough leaves. The flowers in June are clustered, forming small, round balls of double white. It is used many times in preference to the common Snowball, on account of its being free from the aphid which causes the leaves of the other to curl. \$1.50 each.

Common Snowball. Dense and spreading in growth, about 7 ft. high, and a very decorative bush. Much harder than the Japanese, and aside from being subject to the aphid, would be one of our most popular shrubs. \$1.35 each.

Highbush Cranberry. Upright and spreading in growth, about 8 ft. high. Has light gray branches and dark green leaves. There are white clusters of flowers in June, followed by scarlet berries, which stay on all winter. \$1.75 each.

Climbing Rose, Dorothy Perkins

ROSES

Our roses are all northern grown. The California and the southern grown are generally larger plants, and were we a little farther south, would perhaps be fully as good, but for us here, the northern-grown stock is the only safe plant to handle.

CLIMBERS

Dorothy Perkins. There may be a more satisfactory pink climber than the Dorothy Perkins, but we have never seen it. Very hardy, a rank, fast grower, and a solid mass of pink bloom. 75c. each.

Excelsa. This is a red variety of the Dorothy Perkins, and has all its good points, but instead of pink, it is red. Being hardier, a faster grower and fully as good a bloomer, it is fast taking the place of the old rambler. 75c. each.

White Dorothy. This makes the three Dorothys, and like the other two, is very hardy and a fast grower. It is a solid mass of white when in bloom. 75c. each.

Crimson Rambler. This is a beautiful rose, with its bright crimson clusters, but does better where the winters are not quite so severe. \$1.00 each.

Tausendschon. Large clusters of beautiful, shell-pink blossoms changing to white. Very hardy, a fast grower, and an excellent variety. 90c. each.

HYBRID PERPETUALS

We have listed what we consider the handsomest and the hardiest, and those varieties which will give the most satisfaction in every way. These are all free blooming and are the best of the hardy bush roses.

The price is \$1.00 each, or any six for \$5.00.

Anna de Diesbach. Large pink pointed buds, opening full and very handsome.

Captain Christy. A very large, full bloom of delicate flesh-pink.

Captain Hayward. A very large and showy bright scarlet.

Frau Karl Druschki. Very large white, called the White American Beauty.

General Jacqueminot. Large, bright crimson, very free bloomer; one of the best.

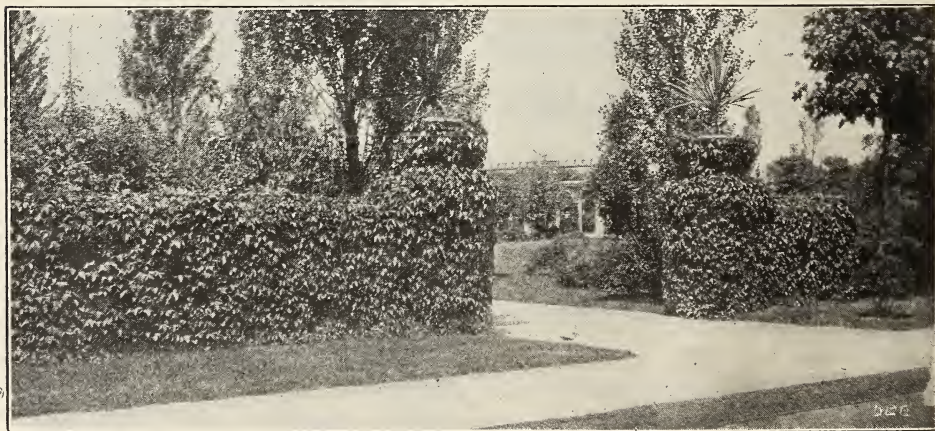

Hybrid Perpetual Rose

HYBRID PERPETUAL ROSES—Continued

- Hugh Dickson.** Crimson, shaded scarlet; a very beautiful rose.
Mme. Plantier. An early blooming white, very fragrant. Not quite so large as Frau Karl Druschki, but a freer bloomer and more hardy.
Magna Charta. A very large, handsome pink.
Margaret Jackson. White, shading to pink center; very delicate and handsome.
Mrs. John Laing. Very free blooming, soft pink.
Paul Neyron. Pink, shading to rose. Another favorite.
Prince Camille de Rohan. Dark, velvety deep maroon. A beautiful thing.
Ulrich Brunner. Very large, deep red, striking and handsome.
Hugonis. This new rose is a wonder, and is a favorite with everyone who sees it. It is very hardy, similar in growth to the Rugosas. Fine as a single specimen or for hedge work. Has dark, heavy foliage and immense clusters of a beautiful, single yellow bloom. Is a very free bloomer. \$2.00 each.
Harrisons Yellow. This is the old-fashioned yellow rose of grandmother's garden. Very hardy and very free blooming. \$1.00 each.
Blanche Moreau. The old-fashioned white moss rose. One of the most beautiful things that ever grew. \$1.35 each.
Henry Martin. Deep crimson moss rose, these two together are certainly a wonder. \$1.35 each.
Crested Morn. Deep pink moss rose. The third of the lot, and perhaps the most beautiful of all. \$1.35 each.
 The set of three for \$3.50.

VINES

- CLEMATIS paniculata.** A beautiful vine, with glossy, dark green foliage and feathery sweet-scented flowers. Excellent for porch or arbor. Very hardy and a fast grower, but requires a little protection until well established. 50c. for a good, strong root.
BITTERSWEET. A fast-growing, hardy vine, with orange-yellow flowers and covered all winter with showy crimson berries. A good vine for shady places. 75c. for a large plant.
CINNAMON VINE. These come up each year from a bulb or tuber which should be stored in the cellar in winter. Very easily grown and a very fast grower. Large leaves and fragrant, white blossoms. Most dealers sell a small size bulb. Ours are all extra large, No. 1. 25c. each, three for 65c.
DUTCHMANS-PIPE. Very large leaves and purple flowers. A beautiful thing and perfectly hardy after it gets started, but hard for the first year or two. This plant will do well if cared for, but *it must be barked* the first year or it will die. On this plant we have cut our price way down, but *will not guarantee it*. \$1.00 each.
HALL JAPANESE HONEYSUCKLE. A strong-growing vine with deep green foliage and covered with trumpet-shaped white flowers which turn yellow. Fine for covering stumps or walls, or on a trellis. The flowers are very sweet-scented. 75c. each.
MATRIMONY-VINE. A very rank growing vine which could almost be classed as a shrub and is excellent for covering low trellises or where a very heavy growth is wanted. 65c. each.
TRUMPET-VINE. A coarse climber with dark green foliage and large, trumpet-shaped, orange-scarlet flowers. Very hardy. 90c. each.

PERENNIALS, or HARDY PLANTS

The use of perennial plants is increasing every year and well it may, for the perennial garden is certainly a joy to anyone who loves flowers. To meet the demand for these plants we are increasing our stock every year, both in the number grown and in the list of varieties to select from. We grow practically all of this stock and when we run short, as we occasionally have in the past and see the quality some are selling, it is no wonder the customer gets discouraged. Many varieties we have now in either the one- or two-year sizes, each of which is listed with the price. Perennials at prices given, sent postpaid.

ACHILLEA, The Pearl. This has dense heads of double flowers in pure white. It grows about 24 in. high and is fine either for a garden or to cut. It is very hardy, practically taking care of itself. We have fine one-year plants for 15c., or two-year clumps for 25c.

AQUILEGIA, or COLUMBINE. Grows about 24 in. high, and with its handsome, light green, deep cut foliage, and the long-spurred delicate-colored flowers, is certainly a beautiful sight. One-year plants 15c., two-year plants, 30c.

BELLIS, or ENGLISH DAISY. A low-growing plant, with a mass of pink and white double, daisy-like flowers. An excellent border plant. One-year stock 15c., two-year stock 25c.

CANTERBURY-BELLS. While these plants are classed as perennials, they are really biennials. We have some nice plants in mixed colors at 15c.

CHINESE LANTERN PLANT. These plants have large husks or pods which grow along the stem and turn a handsome red in the fall. These can be gathered and kept for years. Good roots, 20c. each.

COREOPSIS. This plant should be in every garden. A handsome yellow flower on long stems, blooming from June until frost. A fine flower to cut and planted with delphinium they are simply grand. One-year plants, 15c., two-year plants, 25c.

DELPHINIUM. The tall blue spikes of this most popular flower are seen as much as any one plant grown. As a background for a perennial bed, or in a clump alone, they are a sight to behold. If cut they will bloom twice or three times during the season. No garden is complete without them.

The **belladonna** has sky-blue flowers on numerous branches and is one of the most popular varieties. We have excellent one-year plants for 15c.

In the **Mixed** we have a very fine lot which became mixed when we were transplanting, so we do not know which are light or dark or double. They are a very strong, healthy lot, and some wonderful colorings. These we offer in large, two-year-size at 25c.

DIANTHUS, or HARDY PINKS. Of these, we have a wonderful lot in all shades and colors. This low-growing plant with its narrow, grass-like foliage and bloom which lasts all summer, is beautiful for the front of the bed or scattered through with other plants. They are also excellent as cut flowers. One-year plants 15c., two-year plants 25c.

FORGET-ME-NOT. For a low border plant this is one of the best with its dainty blue flowers and spreading growth. One-year plants 15c.

FOXGLOVE. The tall, stately spikes covered with bell-shaped, speckled flowers will set off a bed as nothing else seems to do. Good plants 15c.

FUNKIA variegata. The variegated green and white foliage of this plant makes it invaluable for edging a walk or bed. 15c. per root.

GOLDENGLOW. 5 to 6 ft. tall, and a mass of golden-yellow, double flowers; it fairly dazzles the eye. A nice large clump 20c.

Delphinium

GYPSOPHILA, or BABYSBREATH. The perennial variety of this plant should be in every garden, not that it adds much to the garden, but it is invaluable to cut from for bouquet work. One-year plants 15c.

HOLLYHOCK, Double. Our double hollyhocks are simply a sight. We import the seed direct from Germany and the blossoms are much like large roses. We have seen good hollyhocks but never any equal to ours. We have them mixed, and a few in separate colors. If you prefer any special color, just mention it and we will do the best we can to furnish it. 15c. each for one-year plants.

HELLEBORUS, or CHRISTMAS ROSE. We make a specialty of these, growing hundreds of them. A clump, with their large green leaves, is an ornament at any time, but just think of a plant that will commence to bloom early in the fall and bloom continuously until the following spring. The blossoms are a white, tinged with pink; single, similar to a single rose. 50c. each for a good sized clump.

IRIS germanica. We have these in orange and plum, lavender, royal purple, white or yellow. We send good large roots for 15c. each, or a set of five for 60c.

LATHYRUS, or PERENNIAL PEA. An excellent vine, very hardy, to cover a low trellis or fence or wall. We have the red, white or rose in one-year plants at 15c.

LUPINUS. This plant is a little out of the ordinary, with its spikes from 2 to 4 ft. high and its butterfly-like flowers in various shades of blue, pink and white, and you certainly will not be disappointed in it. One-year plants 15c.

ORIENTAL-POPPY. With large, showy flowers on stems from 2 to 3 ft. high is a sight to dazzle your eyes. Two-year plants 25c.

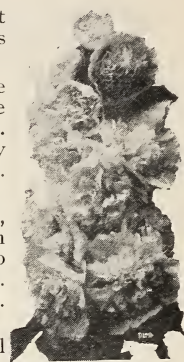

PRINCESFEATHER, or ASTILBE, QUEEN-OF-THE-PRAIRIE. Beautiful pink, plume-like spikes of bloom, growing above the foliage to a height of 4 ft. A beautiful plant alone or in a mixed bed. 25c. each.

PEONIES and PHLOX. These should be moved in the fall and at that time we will send out a list. If you are interested, send us your name on a postal.

PRIMROSE. We have a fine lot of these plants in a two-year size. Remember these will give you a mass of bloom in all shades of yellow and orange, and some scarlet before anything else in the spring. 20c. each.

PYRETHRUM, or PAINTED DAISY. These are very hardy and with their delicate, fine cut foliage are an ornament all summer. But their greatest value is in their large, daisy-like flowers, in all shades of red and pink, which are borne in great profusion from the last of May through June and into July. One of the most valuable plants we have, either for bedding or to cut. One-year plants 15c., two-year 25c. each.

SHASTA DAISY. Like a field daisy magnified ten times. Strong, one-year plants 15c.

Double Hollyhock

Lupinus

Perennial Phlox

Pyrethrum

VEGETABLE PLANTS

We grow thousands of early plants every spring and list here our regular stock. If there are any special varieties you want and will let us know early enough, we will be glad to grow them for you if it is possible. All of the stock we grow under glass is transplanted, and our field-grown plants are sown very thin so as not to crowd, making as stocky plants as possible. The prices quoted are for plants at the store, if you want them sent parcel post send 7c. for the first 25 and 1c. for each 25 in addition.

BRUSSELS SPROUTS. Early field-grown, ready about June 1. 20c. per doz., 1.25 per 100
CABBAGE, Wakefield, First Crop, Round Head, and Copenhagen.

Early transplanted plants ready about April 15. . . 20c. per doz., \$1.25 per 100, \$10.00 per 1000

Early field-grown, same varieties, ready June 1. . . 15c. per doz., 1.00 per 100, 8.00 per 1000

Late field-grown, ready about June 20: **Copenhagen, Flat Dutch, Red Dutch, Red Rock, Danish Ballhead.** . . . 10c. per doz., \$0.60 per 100, \$4.00 per 1000

CAULIFLOWER. We have the best genuine **Snowball** both for early and late.

Early transplanted, ready about May 1. 25c. per doz., \$1.50 per 100, \$12.00 per 1000

Early field-grown, ready about June 1. 20c. per doz., 1.25 per 100, 10.00 per 1000

Late field-grown, ready about June 25. 15c. per doz., 1.00 per 100, 8.00 per 1000

CELERY. Early transplanted plants, ready about May 15. 1.25 per 100

Late transplanted plants, ready about July 15. \$1.00 per 100, 9.00 per 1000

Late field-grown plants, ready about July 1.85 per 100, 5.00 per 1000
 50 at 100 prices, 500 at 1000 prices.

PEPPER. We have two varieties of pepper plants—the **Large Hot**, which is a very large, long fruit and very hot (it is a big producer), and the **R. P. H. Sweet**, which is a very early, medium-size, fine quality pepper and oh, what a producer! Transplanted plants ready about June 1. 30c. per doz., \$2.00 per 100.

PARSLEY. Pot-grown plants of the best **Double Moss Curled.** 10c. each.

SAGE, Holts Mammoth. A very large leaf plant and extra hardy. Pot-grown plants, 10c. each, \$1.00 per doz.

TOMATOES. We have a fine list of varieties of tomatoes. For descriptions, see seed pages. Early, transplanted plants, all varieties, 30c. per doz., ready about June 1.

Burbank, Ponderosa, Golden Queen and Yellow Plum. . . . \$2.20 per 100, \$18.00 per 1000

Earlana, Baltimore, Favorite, Jewel, Stone. 2.00 per 100, 15.00 per 1000

Hotbed-grown plants, not transplanted, but good and stocky, in

Earlana, Jewel, Favorite and Baltimore. 1.50 per 100, 12.00 per 1000

These plants will be ready about June 10th, and can be set right in the field.

TURNIPS. These are field-grown plants ready from June 20 to Aug. 1.

Breadstone, White Rutabaga, and Improved American. 10c. per doz., 50c. per 100, \$3.00 per 1000.

FLOWERING PLANTS

ASTERS. Transplanted stock, ready about June 1, in **Queen of the Market, Royal, Crego,** and **American Branching**, all in mixed colors. 30c. per doz., \$2.00 per 100

Field-grown, ready June 15. 25c. per doz., 1.50 per 100

American Beauty, mixed; **Heart of France**, dark blood-red;

Fancy Yellow and Everlasting Flesh. 30c. per doz., 2.25 per 100

Field-grown, ready June 15. 25c. per doz., 1.75 per 100

HELICHRYSUM, or STRAWFLOWER. These flowers can be grown from seed sown outdoors, but the season is so short that they are just commencing to blossom good when the frost catches them. For that reason, it is better to give the plants a chance to get started indoors. 30c. per doz., \$2.00 per 100.

MARIGOLD, Tall African and French Dwarf. Transplanted and ready to set out about June 1. 25c. per doz., \$1.50 per 100.

DAHLIAS. Dahlias from seed will be of all kinds, single and double and all colors and types. No way to tell what you will get until they bloom. Pot-grown plants, 10c. each.

PANSIES. Our pansies are all grown from the best German seed, and for size and coloring cannot be beat. We have the large, August-grown plants, also the winter-grown stock. The large plants look better when you get them, but will not last as long as the smaller ones. Large plants, 50c. per doz., smaller plants, 40c. per doz.

SNAPDRAGON. These are the tall variety in giant flowers with some wonderful colors. Transplanted plants, ready June 1, 75c. per doz., pot plants, \$1.00 per doz.

VERBENAS. Very fine plants in mixed colors. Transplanted plants, 75c. per doz.; pot-grown, \$1.00 per doz.

In addition to the seedling plants already listed, we will have a fine lot of pot plants such as geraniums, vincas, coleus, ferns, cannas, ivy and many others. These we have in various sizes and colors so numerous it would be impractical to try and list them all here. The stock is strong and healthy and the price is right.

GARDEN TOOLS and SUPPLIES

If you have good soil, good plants, and a love for the work, you have the foundation for a good garden, but if you want to get the greatest return for the least hard labor, you must have the right fertilizer and tools to work with and the proper ammunition to fight the pests which are sure to come. We have tried to tell you in the following list those fertilizers and insecticides that will feed and nurture your plants in the best way and protect them from their enemies. We have also given a list of those tools without which it is difficult to have a good garden. Just look them through and see what you need. Some you would like and some you must have.

SMALL TOOLS. If you want ten-cent store tools, the kind that break the first time they are used, you will not find them here, but you will find tools nearly as cheap and 100 per cent better.

NORCROSS WEEDERS

There are many good tools on the market, but for heavy garden work we put these at the head of the list. They are strongly made, hung just right to work easily; they get close to the plant, literally tearing up the ground and leaving it smooth and mellow. If I was to have only one tool in my garden it would be a Norcross. The accompanying cut shows the three sizes.

The Midget. Has three prongs, a 9-in. handle, and weighs 12 ozs. We send this postpaid for 65c.

No. 3 Norcross. Has three prongs on a 4-ft. handle and is certainly a fine weeder for all places. Postpaid for \$1.00.

No. 5 Norcross. This also has a 4-ft. handle, but is heavier and has five prongs. In our own gardens, we use this almost exclusively, where we formerly used a push cultivator, as it is easier and does better work. Delivered for \$1.20.

MAGIC WEEDERS

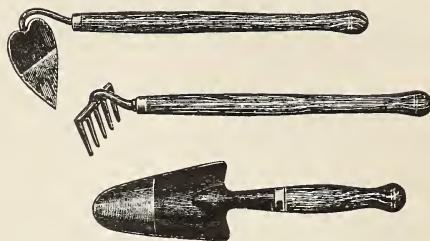

If you want a lighter tool for close work around small plants, you will find the Magic just the thing. For very small plants and close weeding, we use this with the Norcross. They are very strongly made and very light weight. The picture gives a very good idea of them.

Magic A. Is 9 in. long, weighs less than 4 ozs. and for fine, close work cannot be beat. Delivered for 22c.

Magic C. This is practically the same as "A" except that the handle is 18 in. instead of 9 in., so you can reach a little farther with it. Delivered for 32c.

Magic F. 52 in. long, with four prongs which are slightly heavier. For a long reach among small plants, it is great. Postpaid for 87c.

NO. 4 GARDEN SET. This includes a hoe, rake, shovel and spading fork. These are strongly made, excellent tools in a light weight for ladies' use. We have sold a great many of these sets, and if you were to see them, you would surely want them. \$3.00 at the store, or \$3.30 delivered.

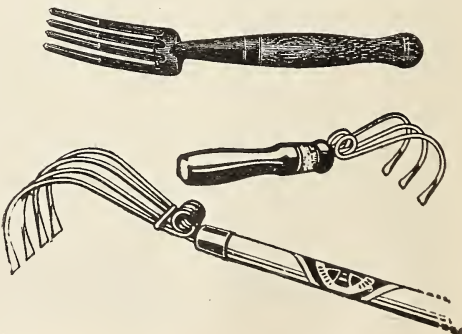

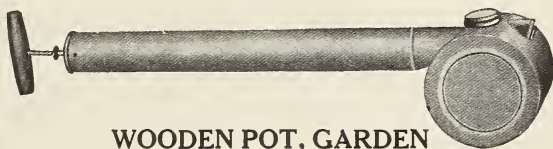

AMERICAN BEAUTY FLORAL SET. The picture tells the story. One of the handiest little sets made and so strong you cannot break them if you try. \$1.00 at the store, \$1.15 delivered.

NO. 100 TROWEL. This is the same trowel sold with the Beauty Set, and is the best trowel we ever used. 50c. each, postage 8c.

NO. 300 FORK. This fork is a companion piece to the 100 trowel. Is 14 in. long, very strongly made and an excellent tool. 50c. each, postage 8c.

ALL STEEL TROWELS. Many like the all-steel trowels, and they are certainly durable. We have a very good one for 25c., postage 8c.

WOODEN POT, GARDEN and TREE LABELS and STAKES

Our labels are strong, well made, painted white on one side, and will be sent postpaid at the prices quoted. The prices at the store will be somewhat less in the various sizes and quantities.

	Doz.	100	1000
4-in. pot labels.....	\$0.15	\$0.35	\$2.15
6-in. pot labels.....	.18	.50	3.35
8-in. pot labels.....	.25	1.35	8.35
12 in. garden labels.....	.40	2.25	
3½-in. tree labels, with cop- per, not iron wires.....	.18	.45	3.25

PLANT STAKES. These are square pointed stakes of cypress, perfectly clear, with no knots, and are painted green. Why use a lot of crooked poles and sticks, spoiling the looks of your plants when you can get these at the prices we ask? Those marked "D" are sent postpaid at the prices quoted, those not so marked sent by express, charges collect.

	Doz.	100
18 in. long. "D".....	\$0.50	\$3.00
24 in. long. "D".....	.60	3.75
30 in. long. "D".....	.75	4.25
36 in. long. "D".....	.90	5.00
4 ft. long. "D".....	1.25	8.00
5 ft. long.....	1.35	10.00
6 ft. long.....	1.75	13.50

PRUNERS. We have two grades of pruners, both will do good work and are excellent value at the prices asked, and the No. 40 we will absolutely guarantee, but the No. 30 we cannot.

No. 30. \$1.00 per pair, postage 9c.
No. 40. \$2.00 per pair, postage 9c.

SPRAYERS AND DUSTERS

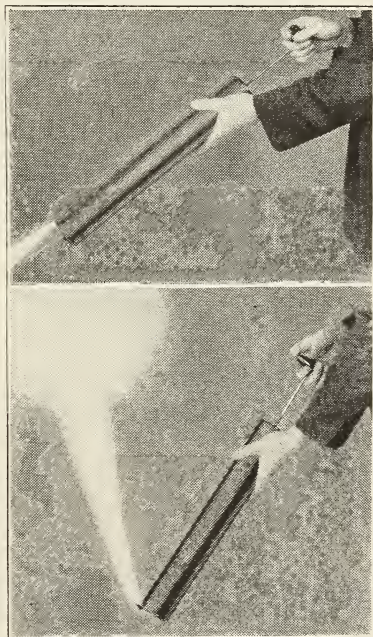

No. 8 Pint Sprayer. This is a well-made tin sprayer, tank is double-seamed, has a drip cup to prevent the drip from soiling floor or carpet. For disinfecting purposes or for roaches, waterbugs or flies it is very handy, or if you only have a few plants to spray, it is just the thing. 40c. each, postage 9c.

No. 22 Compressed Air Sprayer. A 4-gallon, heavy galvanized tank, with all pump castings and pump of brass. It has an automatic nozzle for three different kinds of spray. For whitewashing, spraying crops or any work in which you do not want a power sprayer, this is equal to any machine on the market today. These are \$6.00 at the store, or shipped, express collect.

Justrite. This is exactly the same as the No. 22, except the size, this one holding 2½ gallons. If you want something a little lighter to handle, this is just what you have been looking for. \$5.00 at the store. Sent express collect.

Savage Junior Duster. Dusts without waste and may be changed instantly from straight ahead to a sharp angle. Steel construction, and has a very strong blast. Lumps positively will not clog opening. Excellent for dusting plants, trees or poultry houses. \$1.75 at the store, or sent postpaid for \$1.90.

RAFFIA. For tying plants or for tying vegetables or winding grafts. 30c. per lb. postpaid. Write for quantity prices.

WOODEN FAN TRELLIS

These are a well-made, fan-shaped wooden trellis, made of the best grade of cypress, free from knots, and are painted green or white. While not as durable as the iron trellises, they are very good and some people prefer them.

- 3 ft. high, 16 in. spread at the top, 85c.; postage 10c.
 4 ft. high, 24 in. spread at the top, \$1.00; postage 13c.
 5 ft. high, 30 in. spread at the top, \$1.25; postage 18c.
 6 ft. high, 36 in. spread at the top, \$1.60; sent express collect.
 8 ft. high, 48 in. spread at the top, \$2.00; sent express collect.

WIRE WORK

Our steel trellis and fencing is manufactured for us by one of the largest and best equipped factories in the country. The best quality material is used, and they are strongly made and well put together in every way. Buying in quantity as we do, direct from the factory, we are able to quote very reasonable prices, especially when the quality is considered.

PORCH TRELLIS. Both top and bottom of this trellis is fastened to the building. Made of heavy steel rods, diamond crossed, with extra heavy, galvanized wires. Will last for a lifetime and is a real ornament.

- 30 in. wide by 8 ft. 6 in. long.....\$4.35
 36 in. wide by 8 ft. 6 in. long..... 5.15
 42 in. wide by 8 ft. 6 in. long..... 5.85
 48 in. wide by 8 ft. 6 in. long..... 6.65

PORCH TO GROUND TRELLIS. This trellis is made like the other in every way, except the top is fastened to the wall and the bottom extends to the ground. It is 48 in. wide and 11 ft. 6 in. long over all. \$7.50.

ARCH TRELLIS. These are made in the form of an arch to go over a walk and the small sizes are especially nice to place over a grave and cover with a climbing rose. Like the porch trellises, these are made of a heavy steel rod, frame bound together with strong galvanized wire.

- 30 in. wide with a spread of 36 in., and
 6 ft. high.....\$8.15
 42 in. wide with a spread of 48 in., and
 7 ft. 6 in. high.....10.65

LAWN PANEL TRELLIS. A flat panel-shape trellis, used to support a plant in the lawn or garden. Very useful and ornamental for small bushes, weak-stemmed plants, or small vines.

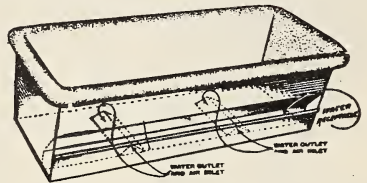

- 4 ft. high, 18 in. wide.....\$2.15
 5 ft. high, 18 in. wide..... 2.85
 5 ft. high, 24 in. wide..... 3.35

WIRE TREE GUARD. These are 5 ft. high and 7 in. across, being made of heavy wire. They will protect your tree from dogs, from the small boy who wants a fishpole, or from other injury. \$1.65 each.

FLOWER BED, or PEONY FENCING. As a support for peonies, or a protection around a flower bed this is perfect. Made of heavy steel wire, strongly put together and ornamental. We have two sizes.

- 16 in. wide (about 12 in above ground)—less than 10 ft. at 13c. per ft.; less than 50 ft., 12c.; over 50 ft., write for wholesale price.
 26 in. wide (about 22 in above ground)—less than 10 ft. at 15c. per ft.; less than 50 ft. 13½c.; over 50 ft., ask for wholesale price.

All wire goods sent express or freight collect.

SUCCESS PLANT BOXES

No house is completely furnished today without a box of plants on the porch or window. Of course you can use any old wooden box, but how much better the plants will do and how much better they look in a good, durable box. And the expense is less than with the poor box, because they never wear out. They are made of high-grade, galvanized steel, yet they are lightweight and easy to handle. They have pressed seams and heavy, reinforced corners, making them watertight. The water pocket runs the entire length on the outside of the bottom on one side, so the plants can be watered in this way, keeping the soil moist and giving a free circulation of air at all times through the soil, keeping it pure and sweet. They are finished with a baked-on green enamel, and are in every way the most satisfactory plant box we have ever seen.

No. C 12. Is a square box for use on a post or pedestal, 12 in. square and 8½ in. deep, \$2.25; postage 15c.

All of the model A boxes are 8½ in wide and 6¼ inches deep.

- No. A 24.** 24 in. long, \$1.35; postage 12c.
No. A 30. 30 in. long, \$1.85; postage 14c.
No. A 36. 36 in. long, \$2.35; postage 16c.
No. A 42. 42 in. long, \$3.25; postage 18c.

EGG BOXES

While these perhaps are not used in a garden, they are something that many of those who receive this catalog will use. If you sell eggs from a road stand, or deliver to customers in town, why bother with paper bags and have all the breakage, when for \$1.20 we will deliver 100 good, strong, cardboard carriers at your door? Only about a cent a dozen. Does it pay to use bags?

BASKETRY MATERIAL

While basket making may be in no way connected with gardening, we find that many of those who are interested in beautiful plants and flowers have a love for other beautiful things. We handle a great quantity of this material and carry a very complete stock, in fact, we are one of the leading supply houses in this line. If you want the second-grade goods, you will not find them listed here. Owing to the great quantity we handle, you will find our prices compare favorably with any.

Basketry material is sold under a slightly different arrangement from our other stock. From this department on all orders amounting to \$1.00 or more, we will prepay delivery in first and second zones only, but if your order amounts to less than \$1.00, please add 5c. to help pay delivery.

On all orders amounting to \$5.00 or more, you may deduct 10 per cent from the price quoted on reed and natural raffia, and 5 per cent on all other stock in this department.

REEDS AND RAFFIA

There are two kinds of reed imported, the German and the Chinese. The Chinese is brittle, rough and often dark in color, while the German is smoother, more pliable and much better color. We have only the best German No. 1 Prime White.

PREPARED PRINCESS PINE. A fine green foliage to be used in bouquets with dried or artificial flowers. 10c. per bunch.

DRIED GERMAN STATICE. A fine white flower grown in Germany. Similar to the Babysbreath, but a little coarser. Excellent for bouquets. 25c. per bunch.

HELICHRYSUM, or STRAWFLOWERS, DRIED. 20c. per doz.

In addition to these, we have a very complete line of artificial flowers in both wax and cloth, which we use in the making of wreaths and sprays for Memorial Day. Let us know what you want and we will be glad to show them, or quote prices.

If you want to grow Flowers and Vegetables to sell either in town or at a road stand, do not make the mistake so many do of going at it with your eyes shut, that is, not know just what you are doing. We have watched this business and have made some study and know about what there is a demand for and how to go at it, and we will be very glad to help you in any way we can.

FERTILIZERS and INSECTICIDES

Don't think for one minute that your plants will thrive without food, and just as we are reading and hearing about the proper food for humans and for animals, so the plant must have proper food to make the best growth and keep strong and well. We sell what we consider the best, the ones we use on our own place.

ATLAS NON-POISONOUS WEED KILLER

Kills the weeds and seeds of all undesirable vegetation, and is absolutely harmless to man or beast. Is odorless and color-

less, and is most economical to use, as its effects are more lasting than other kinds. Simply dilute with water and apply as per directions on package. One gallon will treat 500 sq. ft. of ground. For keeping walks and drives clean it is just what you want. Qt. 75c., gal. \$2.00; 5-gal. drum \$8.00, charges collect. Cannot be sent by mail.

**ACME
GARDEN GUARD**

An insecticide and fungicide that has been on the market but a short time, but on account of its superior qualities, has become one of the best sellers. It certainly finishes the insects of all kinds and the bordeaux in it is a sure remedy for molds and mildew. Requires no sifter, duster or sprayer; simply use the sifter-top can in which it comes. Lb. can 25c., postage 8c.

ARCADIAN SULPHATE OF AMMONIA

This is a very highly concentrated, quick-acting fertilizer. For any plants on which you want a quick growth, this will do it. No odor, no lumps, all soluble. 2-lb. pkg. 35c., postage 8c.; 5-lb. bag 65c., postage 12c.; 25-lb. bag \$2.25, postage 33c.

BONEMEAL

This is excellent for lawns, also for garden use. 5 lbs. 40c., postage 12c.; 25 lbs. to 100 lbs. at 4c. per lb.; 100-lb. bag \$3.75.

With all the plant pests we have to contend with, one must be on the job every minute and have the best there is to combat them with.

CROW REPELLANT

This is a non-poisonous liquid which, put on your seed corn, will positively protect it from crows and other birds, but will not kill them. It is very highly recommended by those who have used it. Enough for one bushel sent postpaid for \$1.10, or enough for two bushels for \$1.60. Either size, 10c. less at the store.

HEXPO

This is a mixture of arsenate of lead and bordeaux. The arsenate of lead acts as a poison, killing all bugs and worms, and the bordeaux acts as a fungicide, to prevent blight and disease. We sell a great quantity of this, and as nearly everyone who uses it once comes back for more, it must be satisfactory. This year we are in a position to make a very special price. Lb. box 30c., 5 lbs. \$1.45, 10 lbs. \$2.75, 25-lb. drum \$6.50. This cannot be sent by mail.

NITRATE OF SODA

Another very strong, quick-acting fertilizer. Excellent for corn or any foliage plants such as lettuce, cabbage, etc. 5 lbs. 35c., postage 12c.; 25 lbs. \$1.25, postage 33c.

PARIS GREEN

¼ lb. 12c., ½ lb. 22c., lb. 40c. Cannot be sent by mail.

POWDERED SULPHUR

For molds or mildew on all plants this is excellent. Postpaid, lb. 20c., 5 lbs. 60c.

STERILIZED SHEEP MANURE

An excellent fertilizer for lawn or garden. Quick-acting and one of the best for general garden use. 5 lbs. 35c., postage 12c.; 25 lbs. to 100 lbs. at 4c. per lb.; 100-lb. bag \$3.50.

SLUG SHOT

No need to describe Slug Shot. Anything that has had the enormous sale this has for nearly fifty years must be about as good as anything that can be made. For all kinds of worms, slugs and insects it is O. K. Lb. can 20c., postage 7c.; 5 lbs. 55c., postage 12c.

TOBACCO DUST

For lice on poultry, plants or animals. Our dust is actually a dust, and is tobacco dust. It is not sweepings from the floors, ground up. Very fine, and extra strong. We have sold it successfully for 14 years, ever since we started in business, and they still continue to use it. Lb. postpaid for 20c., 5 lbs. 60c., 12 lbs. \$1.15.

TREE TANGLEFOOT

This is a sticky substance which is spread on the trunks of trees to prevent worms and insects from crawling up. Lb. can, postpaid, 65c.

V. C. PLANT FOOD

This is an odorless, quick-acting food for plants, either in pots in the house or in the garden. Is well balanced, with the various ingredients to make not only foliage, but root growth, and bloom as well. Lb. cans 25c., postage 7c.; 5 lbs. 75c., postage 12c.; 10 lbs. \$1.25, postage 17c.; 25 lbs. \$2.50, postage 33c.

Am writing you in regard to the farm and garden seed I purchased of you last year. Will say they were fine. My garden was the best I have had in a long time. I took first premium on garden exhibit, first on farm exhibit and first on all separate exhibits but two at the Brookfield Madison County fair. I can't speak too well of your seeds. Will send in my Spring order soon. —Robt. Curnow, Brookfield.

NOTE: The display of vegetables at Brookfield was unusually good this year and Mr. Curnow certainly had a display to be proud of.

Bargain Counter

If you are looking for real bargains see what we offer here. These are not second-grade, but are our regular stock and are offered principally to get new customers to give us a trial, but that does not prevent anyone from taking advantage of a good thing when they see it.

First.—If you are a market gardener or buy in quantity we will be glad to quote you special prices. It takes very little more time to put up a large order than it does a small one, and we are glad to divide that saving with you.

Second.—We are always glad to get club orders, either from a number of persons sending together, or from the grange, or other organizations, and have special rates we offer to such. If you care to take advantage of this saving write in for "Special Club Rates."

Third.—If your *total order* amounts to \$1.00 or more, for that part of your order consisting of vegetable and flower seeds in *packets*, you may select \$1.25 worth for \$1.00

Fourth.—Junior Project Workers. To all Junior Project Workers we will sell seeds at *one-half our regular catalog prices*. We will sell at this price for actual use in Junior Project gardens *only*, and when you send in your order you must say, "I agree to use these seeds entirely in my own Junior Project garden."

Fifth.—We expect to offer prizes at a number of fairs this year for vegetables and flowers grown from our seed. We have not completed the list of classes, and the amounts we can offer for premiums, but if you are interested and wish to compete, let us know when you send in your order, or if not then, at least two weeks before the date of the fair. We expect to offer these at DeRuyter, Norwich, Brookfield and Paris Hill.

SPECIAL COLLECTIONS OF SEEDS AND PLANTS

VEGETABLE SEED COLLECTION NO. 1

If you have a small garden and do not know what to plant to get the most out of it, let us help you. We have made up a nice assortment, just enough seed of each kind for a very small garden. We send it postpaid for 50c.

VEGETABLE SEED COLLECTION NO. 2

If your garden is a little larger, perhaps 25 ft. wide and 50 ft. long, and you need a few more than No. 1. Let us send you this for \$1.00.

VEGETABLE SEED COLLECTION NO. 3

There are enough seed in this lot to plant a good-sized farm or village garden and furnish vegetables for quite a family. Postpaid for \$1.75.
